The Western Interstate Commission for Higher Education (WICHE) is a 16-member commission working to boost access to higher education for students in the West and, as importantly, to ensure their success. Nevada has been a member of WICHE since 1959.

**Benefits to Nevada**

- Tens of thousands of students from Nevada have attended undergraduate, graduate, and professional programs in other Western states through WICHE’s Student Exchange Program, saving millions of dollars, thanks to reduced tuition rates. In just one of the programs, the Western Undergraduate Exchange, Nevada students and their families have saved more than $128.1 million since 1988, when the program was founded.
- Nevada has received funding to be part of numerous WICHE policy initiatives, including those focused on financing and financial aid, workforce policy, and other areas.
- Nevada has participated in WICHE initiatives related to distance education, workforce development, and behavioral health.

**Doing the Math: Nevada’s Return on Investment**

- In 2016-17 Nevada, its institutions, and its students saved or brought in over $15.7 million through WICHE and spent $145,000 for membership in the commission, yielding a 109-fold return on investment.
- In the last five years, Nevada students’ savings from WUE alone have added up to $55.2 million, yielding an 82-fold return on the state’s investment in WICHE.

**WICHE’s Student Exchange & Related Programs**

Nevada is active in all three WICHE Student Exchange Programs: the Western Undergraduate Exchange, the Professional Student Exchange Program, and the Western Regional Graduate Program. In 2016-17 Nevada’s students and families saved more than $15.4 million. Nevada saved money, too, through not having to establish and maintain costly programs in a number of areas, including some in healthcare.

**Western Undergraduate Exchange.** Nevada students have enrolled in undergraduate programs beyond Nevada’s borders through the Western Undergraduate Exchange (WUE) since 1988. In 2016-17, 1,640 students from Nevada were enrolled in out-of-state programs at reduced rates (150 percent of resident tuition), saving $13.5 million in tuition and fees – the average student savings amounted to $8,265. In the last 10 years, students have saved over $91.1 million.

Nevada benefits from WUE in another way: by receiving students from out of state. Nevada’s institutions can choose how many out-of-state slots to offer and in which areas, allowing them to make the best use of their resources by accepting students in underenrolled programs. There’s a workforce benefit for the state, too, as students often stay in Nevada after graduating. In 2016-17 Nevada received 4,561 students through WUE.

**Professional Student Exchange Program.** Nevada has sent 1,481 students to professional programs through the Professional Student Exchange Program (PSEP), with 45 students currently studying in a host of critical fields, including optometry, pharmacy, physical therapy, physician assistant, and veterinary medicine. Nevada received 23 PSEP students from other states in 2016-17, along with $349,845 in support fees. Historically, 89 percent of PSEP students return to Nevada to pursue their professional careers.

**Western Regional Graduate Program.** Nevada’s postgraduates also enroll in degree and certificate programs through the Western Regional Graduate Program (WRGP), which offers access to some 450 high-quality, distinctive programs at 61 institutions in all WICHE states. WRGP programs run the gamut, but emerging social, environmental, and resource-management fields are particular strengths, as are innovative interdisciplinary programs. In 2016-17 Nevada sent 75 students to out-of-state institutions, while receiving 16.

**Interstate Passport®** is a program that facilitates block transfer of lower-division general education based on learning outcomes and proficiency criteria. It includes learning outcomes for nine knowledge and skill areas developed by WICHE & NEVADA

Partnering for Over 55 Years

**ACCESS • COLLABORATION • INNOVATION**
Nevada is projected to produce 24,700 high school graduates through 2024 and then decrease by about the same amount between 2025 and 2032.

Non-White populations. After about 2025, the nation and most states will produce fewer high school graduates than in recent years, due to a recent “baby bust”. The WICHE region will generally track the national trend, but it will be less impacted by the contraction of White youth and more influenced by a projected 20 percent increase of Hispanic high school graduates through 2024 and then decrease by about the same amount between 2025 and 2032.

There is an abundance of information on WICHE's programs in policy, workforce development, technology, mental health, and other areas. One of WICHE's most widely known publications is the Knocking at the College Door: Projections of High School Graduates series, which for almost 40 years has provided strategic data about how high school graduates are likely to change in the years ahead. The 9th edition of Knocking at the College Door, released in December 2016, describes how the nation has entered a decade of stabilization in the number of high school graduates, with substantial contraction in the number of White high school graduates and rapid increases of non-White populations. After about 2025, the nation and most states will produce fewer high school graduates than in recent years, due to a recent “baby bust”. The WICHE region will generally track the national trend, but it will be less impacted by the contraction of White youth and more influenced by a projected 20 percent increase of Hispanic high school graduates through 2024 and then decrease by about the same amount between 2025 and 2032.

Nevada is projected to produce 24,700 high school graduates per year, on average, between school years 2012 and 2032. The number of high school graduates in Nevada will increase about 20% by 2025 – about 3,300 more graduates – and then decline about 12% by 2032.

Non-White public high school graduates are currently about 52% of all of Nevada’s public high school graduates and will increase to 60% of the total by 2032.

Nevada gains added value from WICHE's programs in policy, workforce development, technology, mental health, and other areas.

Policy & Workforce Development. Nevada has participated in projects supporting better-informed decision making at the state level. WICHE initiatives have been sponsored by the Bill & Melinda Gates Foundation, Ford Foundation, Lumina Foundation, the U.S. Department of Education, and others. In addition, WICHE policy experts often visit the state to present or consult on a number of vital issues, including the state’s workforce needs and balancing the financial aid portfolio between grants, loans, and scholarships, as well as between merit- and need-based aid.

Nevada also participated in a Gates-funded meeting that brought together the stewards of the data systems in 14 of the WICHE states for discussions around linking data internally and with other states. A central topic of conversation was how to address the challenges to data sharing presented by the Family Educational Rights and Privacy Act.

The Adult College Completion (ACC) Network, funded by Lumina Foundation, was an 800-member learning network that united organizations and agencies working to increase college completion by adults with prior college credits but no degree. Activities included an annual workshop, a webinar series, publications, a listserv, and other resources. The ACC Network and WICHE became national leaders in the area of adult learners and continue to be an important resource to those who strive to better serve non-traditional students.

The State Higher Education Policy Database (SHEPD) is WICHE’s online searchable database. It provides state and national policymakers, education leaders, practitioners, and education consumers with an inventory of state-level policies and resources in key policy issue areas related to access and success in higher education. It contains a blog and an electronic SHEPD alert distribution list to keep subscribers current on important updates. A related resource is the Policy Publications Clearinghouse, a depository of publications, reports, and briefs related to higher education.

WICHE staff has worked with the Nevada System of Higher Education on funding formulas and accountability systems and has produced targeted documents for the state, including a
customized table from our annual Tuition and Fees report for NSHE staff usage.

Regional Academic Leadership Initiatives. Nevada State College, the Nevada System of Higher Education, University of Nevada, Reno, and the University of Nevada, Las Vegas are members of the Western Academic Leadership Forum (the Forum), the chief academic leaders of the four-year institutions and their related system and state agencies, who address regional higher education issues, and engage in resource sharing. The Western Alliance for Community College Academic Leaders (the Alliance) brings academic leaders of community colleges and technical schools and systems together with state governing and coordinating boards associated with two-year institutions to exchange ideas and information, share resources and expertise, and collaborate on regional initiatives. Great Basin College, Truckee Meadows Community College, and Western Nevada College are members.

Technology. Several Nevada colleges and universities are active participants in the WICHE Cooperative for Educational Technologies (WCET), the leader in the practice, policy, and advocacy of technology-enhanced learning in higher education. WCET is widely recognized as one of the most informative, reliable, and forward-thinking organizations regarding the role of technology and innovation in higher education. Our growing membership includes more than 350 institutions, state and system-wide higher education agencies, nonprofit organizations, government agencies, and corporations in nearly all U.S. states and many Canadian provinces. WCET members have access to trusted information on emerging trends, policies, and exemplars of successful learning technology innovation in practice. Key WCET activities include an annual meeting, leadership summits, national webcasts, and email list-based discussions among members. Major topics of interest to the WCET membership include student success, managing e-learning, faculty success, emerging technologies, and evolving policy issues.

Mental Health. Over the course of the past decade, WICHE has worked collaboratively with both the Nevada Division of Public and Behavioral Health (DPBH) and the State of Nevada WICHE to better understand behavioral health workforce issues. From this engagement has evolved the development of the Nevada Psychology Internship Consortium, which matriculated its first cohort of interns the summer of 2015. This is a unique partnership between WICHE MHP, Nevada WICHE, and DPBH. Nevada WICHE has committed funds for internship stipends, while the DPBH has funded WICHE to develop the internship and technical assistance support for gaining accreditation. As DPBH achieves the ability to self-fund the internship stipends, Nevada WICHE has expressed a commitment to redirect its funding support to new behavioral health professional education and training initiatives.

State Authorization Reciprocity Agreement (SARA). SARA is a voluntary, nationwide initiative of states that will make distance education courses more accessible to students across state lines and make it easier for states to regulate and institutions to participate in interstate distance education. The effort initially was funded by $3.2 million in grants from Lumina Foundation and the Bill & Melinda Gates Foundation, and is now supported by fees paid by institutions. The initiative is administered by the country’s four regional higher education compacts — the Midwestern Higher Education Compact (MHEC), the New England Board of Higher Education (NEBHE), the Southern Regional Education Board (SREB), and the Western Interstate Commission for Higher Education (WICHE) – and overseen by the National Council for State Authorization Reciprocity Agreements (NC-SARA). States and institutions that choose to participate agree to operate under common standards and procedures, providing a more uniform and less costly regulatory environment for institutions, more focused oversight responsibilities for states, and better resolution of student complaints. Nevada was among the first WICHE states to become a member of W-SARA in this reciprocal relationship.

Other Initiatives. Another initiative, the Master Property Program (MPP), helps institutions reduce their insurance premiums and improve their coverage. Created by the Midwestern Higher Education Compact in 1994 and expanded to the WICHE region in 2004, the MPP includes more than 160 campuses with total insured values of over $103 million. The 10 institutions in the Nevada System of Higher Education are insured through the MPP and collectively have saved several million on their insurance costs. WICHE is also partnering with MHEC to offer MHECare, a health program providing vetted, competitively priced medical benefits for students. Underwritten by UnitedHealthcare StudentResources, MHECare offers a variety of plans. Sierra Nevada College participates in MHECare. In a third collaboration with MHEC, WICHE extends the benefits of MHECTech to colleges and universities in the West, enabling them to purchase from competitively bid purchasing agreements to reduce costs on a range of hardware and software products and services.

"WICHE’s PSEP program helps attract many high quality applicants to our Doctor of Physical Therapy program. As the “ninth island”, Las Vegas is a great option for students from Hawaii to have access to wonderful educational opportunities and still maintain a close connection to home. Thank you for helping our program to be a part of the professional development of many fine students from Alaska, Hawaii, and Wyoming as they pursue their doctor of physical therapy degree."

– Keoni Kins, Administrative Clinical Coordinator, Doctor of Physical Therapy program, University of Nevada, Las Vegas, Nevada

“WUE has made paying for school easier. I am pursuing my degree in anthropology, which is something I have wanted to do for my whole life!”

– Rose, Nevada resident, Class of 2018, Idaho State University, Anthropology
Nevada & WICHE’s Leadership

The WICHE Commission, with three commissioners from each member state, molds the organization’s mission and set its priorities. Nevada’s current commissioner is: Fred Lokken, professor, Truckee Meadows Community College, Reno. Two commissioners are to be appointed.

Fred Lokken

WICHE also seeks assistance and advice from policymakers, educators, administrators and legislators. WICHE’s Legislative Advisory Committee (LAC), composed of legislator-members from each state has been crucial in this regard. Sen. Joseph Hardy and dAssemdblymenber Amber Joiner are the legislators currently serving on the committee from Nevada. The LAC works to keep the commission’s Executive Committee and staff current on significant legislative issues related to higher education, provides input on WICHE initiatives, and advises staff on a host of issues. WICHE staff also serves the LAC by informing its members about emerging policy issues in the West.

WICHE Commission & Staff

The WICHE Commission’s 16 members include representatives from 15 Western states – Alaska, Arizona, California, Colorado, Hawai’i, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, the U.S. Pacific territories and freely associated states (the various entities can decide to participate), Utah, Washington, and Wyoming. Members work collaboratively to provide educational access and excellence for all citizens.

WICHE and its staff are headquartered in Boulder, CO, and operate out of the State Higher Education Policy Center, which WICHE owns with the State Higher Education Executive Officers association and the National Center for Higher Education Management Systems.

Staff leadership includes:

- Joseph A. Garcia, president
- Michael Abbiatti, vice president for educational technologies and executive director, WCET
- John Lopez, special assistant to the president and chief administrative officer, and director, W-SARA
- Demarée Michelau, vice president, policy analysis and research
- Jere Mock, vice president, programs and services
- Dennis Mohatt, vice president, behavioral health
- Jeremy Simon, director of strategic communications

How can I find out more about WICHE?

Visit our website at www.wiche.edu or contact President Joseph A. Garcia at 303.541.0201.
