Discussion questions for Open Textbook presentation

What would need to be in place for you to adopt an open textbook?

Is collaboration valued at your institution?

Is the creation of new work more highly valued at your institution than the reuse or revision of existing work?

To what extent do current institutional policies motivate educators to invest at least a portion of their time in ongoing curriculum design, creation of effective learning environments and the development of high quality instructional materials? Versus research?

What is the culture of your institution? Would OER work be accepted by your peers at your institution? Elsewhere?
