

## WICHE Fact Book Table 15 Supplement

This dashboard summarizes Fall semester first-time degree-seeking undergraduates (typically referred to as 'college freshmen'), and where they attend college relative to their permanent state of residence.

### In 2016, 76% of First-Time Degree-Seeking Undergraduates in Colorado Were Resident Students, 24% Were from Out-of-State

#### Freshmen from Out-of-State at Colorado Public 4-Year Institutions:

- increased 50% between Fall 2006 and Fall 2016 (Colorado resident freshmen increased 8% over the same time period).
- were 61% of all non-resident freshmen in Colorado in Fall 2006, and 70% in Fall 2016.

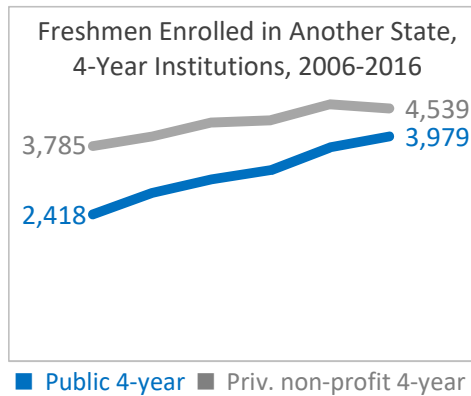

#### Where Out-of-State Freshmen Are From

State	Percent
California	18%
Texas	9%
Illinois	6%
Foreign	5%
New Mexico	4%

### 23% of Colorado Residents Who Were First-Time Freshmen in Fall 2016 Enrolled in Another State

#### Freshmen Enrolled in Another State:

The percent of first-time undergraduates from Colorado (with Colorado residency) who enrolled at an institution in another state increased from 16.4% to 23.2% between 2006 and 2016.

#### Where Else Freshmen Enroll (Top 5)

State	Percent

## WICHE Fact Book Table 15 Supplement

Data are suppressed when reported enrollment was less than 10. In 2006, California Community Colleges only reported state of residence for students from California, which may impact changes over time. Some data anomalies were observed but not adjusted. *Definitions* : Includes all students enrolling within the United States among the included institutions, in Fall semester. First-time undergraduates=all first-time students entering the institution, full- or part-time, with any year of high school graduation or without a GED or high school diploma. State of residence=the permanent address identified by the student at the time of application to the institution (not necessarily the state of high school).

Fall semester college freshmen are only a portion of all of Colorado's undergraduate students; many more students also return to continue studies each Fall, in addition to students who begin in the Spring and those not enrolled in a degree program. The data on this dashboard cover public and non-profit institutions, which have enrolled 90% or more of all undergraduates at Colorado institutions since 2006. Several of the dashboard indicators focus on four-year institutions, because they typically encompass the majority of students who study out of state. On average each Fall, 65% of Colorado's first-time degree-seeking undergraduates have enrolled at public and non-profit four-year institutions; 35% enrolled at public two-year institutions.
