For more information or if you are interested in applying, please email BHJobsHawaii@wiche.edu and attach your resume.

Licensed Mental Health Specialist

Level of Education: Master's in counseling, marriage/family therapy, psychology or social work.

Desired Qualification: National Certified Counselor

Clinical Psychologist V

Level of Education: Applicants must possess the requirements specified in either A, B, C, D or E below:

A. Successful completion of all requirements for a doctoral degree from an accredited college in clinical psychology which included an internship in clinical psychology. In lieu of the internship requirement, applicants may substitute one year of professional work experience in the field of clinical psychology.

B. Successful completion of all requirements for a doctoral degree from an accredited college in a specialty related to clinical psychology. The doctoral program must have included an internship in clinical psychology or must have been supplemented by a post-doctoral clinical internship. In lieu of the clinical internship requirement, applicants may substitute one year of post-doctoral clinical psychology experience under competent profession supervision.

C. Holds a doctoral degree from a training program approved by the American Psychological Association (APA) or holds a doctoral degree from a regionally accredited institution of higher education and also meets the experiential requirements for inclusion in the National Register of Health Service Providers in Psychology, as described in Chapter 465, HRS.

D. Holds a diplomat certificate in good standing granted by the American Board of Examiners in Professional Psychology, as described in Chapter 465, HRS.

E. A valid license to practice psychology in the State of Hawaii, as described in Chapter 465, HRS.

Experience Requirements: For the level VI, one (1) year of professional clinical psychology experience which involved psycho diagnostic and psychotherapeutic services to individuals with severe problems of personality, social, emotional adjustment or mental retardation.

License Requirement: Within two years from the date of appointment as a Clinical Psychologist V or higher, applicant(s) hired must meet the requirements for licensing and obtain a license issued by the Hawaii State Board of Psychology, as required by Chapter 465, HRS.

School Psychologist (Master's)

Level of Education: Applicants must possess the requirements specified in either A, B, C, or D below:

A. A master's degree from a regionally accredited college or university in school psychology; and a 1200 hour internship of which 600 hours must have been in an elementary, middle or secondary school setting, provided that when the internship is of less than 1200 hours and/or 600 hours in a school setting, one additional year of supervised professional work as a school psychologist in a school setting shall meet the required internship experience; or

B. A master's degree from a regionally accredited college or university in educational psychology, counseling psychology or closely related field in a psychology profession that included graduate courses in human learning and development, psycho-educational assessment, individual differences, remedial and special education, principles of legal and ethical issues in the field of education or psychology, statistics, research methodology; and a 1200 hour internship of which 600 hours must have been in an elementary, middle or secondary school setting, provided that when the internship is of less than 1200 hours and/or 600 hours in a school setting, one additional year of supervised professional work in a psychology profession in a school setting shall meet the required internship experience; or

C. Current School Psychologist license or certification issued by another state; or

D. Current Nationally Certified School Psychologist certification from the National Association of School Psychologists.

Experience Requirements: Applicants must also possess (A) knowledge of the role and function of school psychologists, child and adolescent development; individual differences and exceptionalities; theories of learning, intelligence, and personality; counseling and interventions; the use of interpretation of psycho-educational tests; principles and practices of education; physiological psychology; statistics and research methodology; principles of legal and ethical issues in professional practices; applicable State and federal rules and regulations; and (B) the ability to implement school psychological services and school-based mental-health related services; apply theoretical knowledge to practical situations; participate as a team member and group facilitator; demonstrate effective organizational, time management, and decision-making skills; develop and maintain collaborative working relationships with personnel in various disciplines; prepare clear and concise reports and communicate effectively, both orally and in writing; develop and maintain professional integrity and excellence by actively engaging in activities such as workshops, seminars, and related training that are designed to maintain, expand and extend professional knowledge and skills.
