Western Interstate Commission for Higher Education

Since 1953, the Western Interstate Commission for Higher Education (WICHE) has been strengthening higher education, workforce development, and behavioral health throughout the region. As an interstate compact, WICHE partners with states, territories, and postsecondary institutions to share knowledge, create resources, and develop innovative solutions that address some of our society's most pressing needs. From promoting high-quality, affordable postsecondary education to helping states get the most from their technology investments and addressing behavioral health challenges, WICHE improves lives across the West through innovation, cooperation, resource sharing, and sound public policy. Members are:

Alaska	Guam	North Dakota
Arizona	Hawai'i	Oregon
California	Idaho	South Dakota
Colorado	Montana	Utah
Commonwealth of the Northern Mariana Islands	Nevada	Washington
	New Mexico	Wyoming

This publication was prepared by the Policy Analysis and Research Unit. WICHE's Policy Analysis and Research unit offers various resources to support better-informed decision-making, principally at the state level. Topics for its numerous research projects and collaborations include postsecondary completion, closing attainment gaps, adult learners, and multistate data-sharing to support educational planning and workforce development. The unit's staff members serve as subject-matter experts on higher education issues including finance, state and federal financial aid, articulation and transfer, strategic planning, and student demographics. Publications, including the WICHE Insights series, explore a range of significant policy issues. Unit staff members undertake long-term grant-funded projects, collaborate with regional and national partners, and provide short-term technical assistance to WICHE members.

Summary

Tuition and Fees in Public Higher Education in the West: 2020-21 provides comprehensive data about the tuition and fees prices published by public higher education institutions in the WICHE region for 2020-21, including changes in tuition and fee rates over the past one-, five-, and 10-year periods.¹ The tuition and fees included in this report can be viewed in an interactive dashboard and downloaded for further analysis at <https://www.wiche.edu/policy-research/data-resources/tuition-fees/>.

Key Takeaways

- Average resident undergraduate tuition and fees at public four-year institutions are \$9,876 in 2020-21, an increase of 1.2 percent compared to the year prior.
- Average in-district tuition and fees at public two-year institutions (excluding California) are \$4,057 in 2020-21, an increase of 0.8 percent from 2019-20.
- The average increase in tuition and fees in both sectors was the lowest reported annual change over the past decade.
- The impacts of COVID-19 on tuition and fees rates appeared to be minimal for 2020-21, with potentially more significant impacts coming in 2021-22.

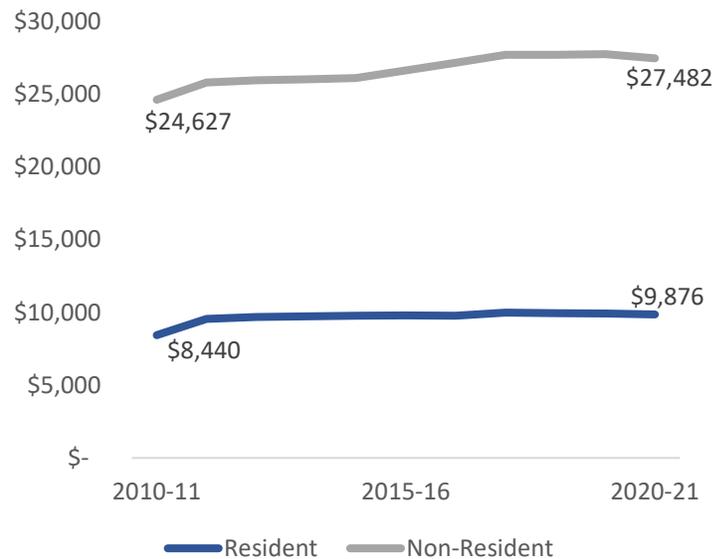

Tuition and Fees at Public Four-Year Institutions

Regional Trends

The regional average tuition and fees for resident undergraduates are \$9,876 in 2020-21, an increase of \$117 (1.2 percent) compared to 2019-20 (Table 1; p.6).² When adjusting for inflation, regional average tuition and fees decreased by \$59 (0.6 percent) in the past year.³ Additionally:

- Tuition and fees for non-resident undergraduates averaged \$27,482 in 2020-21 and increased at a slightly lower rate (0.8 percent) between 2019-20 and 2020-21.
- The average annual change in tuition and fees in the past year is the lowest reported annual rate of change over the past decade.
- When adjusting for inflation, average undergraduate tuition and fees increased 17.0 percent since 2010-11 and just 0.8 percent since 2015-16.

Figure 1. Regional Average Undergraduate Tuition and Fees at Public Four-Year Institutions, 2010-11 to 2020-21

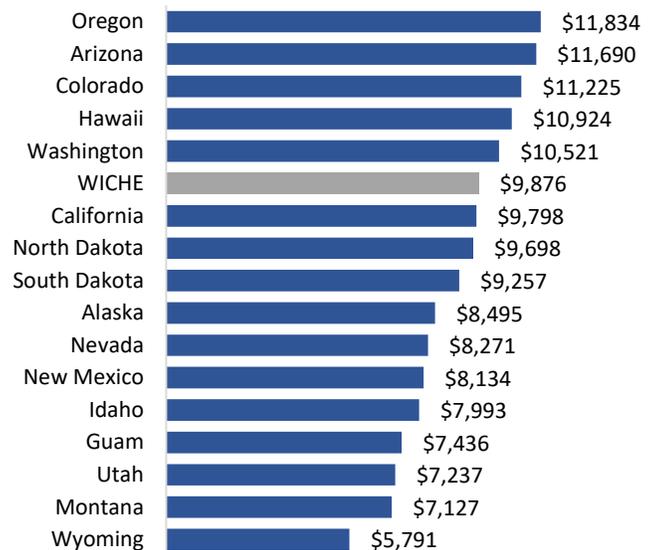

State Variation in Resident Undergraduate Tuition and Fees

Regional average tuition and fees provide a benchmark for trends in price for students and families in the region, however, these trends mask the significant variation in state averages (Table 3; p. 8) and institutions in the region (Table 4; p.10). For example:

- State average tuition and fees for resident undergraduates range from \$5,791 (Wyoming) to \$11,834 (Oregon) (Figure 2).
- There is even further variation across institutions and systems within a state as shown in Table 3 and Table 4. For example, tuition and fees at institutions in the University of California system average \$14,077 and the California State University system reported an average of \$7,392 in 2020-21 (Table 3; p. 8)
- Three states in the region reported no annual change in tuition and fees and four additional states reported annual increases lower than 1.0 percent in 2020-21.
- On the other hand, six states reported an annual increase of 4.0 percent or higher in 2020-21.
- Similar to the regional average rate of change, seven states reported their lowest annual change in tuition and fees in the past decade.

Figure 2. State Average Resident Tuition and Fees at Four-Year Institutions, Weighted, 2020-21

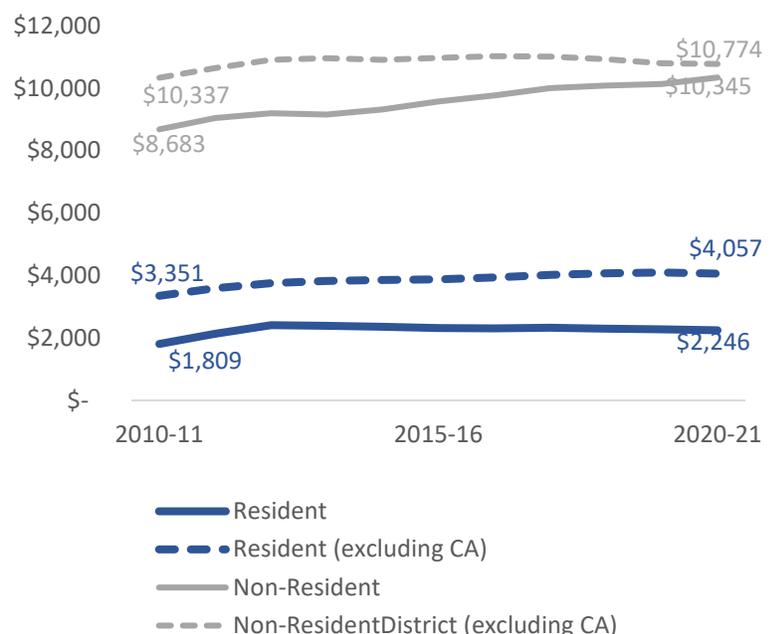

Tuition and Fees at Public Two-Year Institutions

Regional Trends

Average tuition and fees for in-district students at public two-year institutions in the WICHE region (excluding California and Alaska) are \$4,057 in 2020-21 (see Table 1; page 1). This was a \$32 increase (0.8 percent) from 2019-20 rates. When adjusted for inflation, the 2020-21 in-district rate decreased by \$40 (1.0 percent) compared to 2019-20 (Table 2; p. 7). Additionally:

- When including California, the regional average tuition and fees for in-district students are \$2,246 in 2020-21, which was an increase of \$11 (0.5 percent) compared to 2020-21.
- Average out-of-district tuition and fees are \$10,774 (excluding California and Alaska) in 2021-21. Out-of-district rates increased at a higher rate (1.6 percent) in the past year compared to in-district rates.
- In constant 2020 dollars, regional average in-district tuition and fees (including California)

Figure 3. Undergraduate Tuition and Fees at Public Two-Year Institutions, 2010-11 to 2020-21

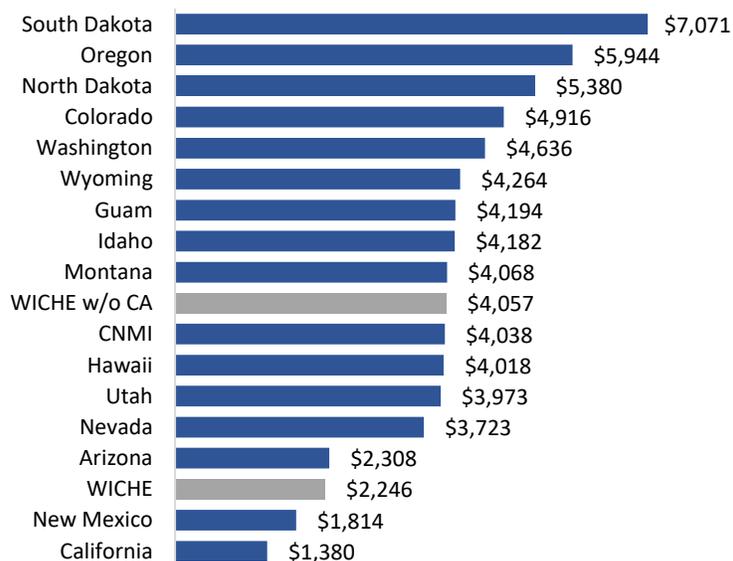

have remained relatively stable and the annual change in tuition and fees in the region has decreased in each of the past three years.

State Variation in In-District Undergraduate Tuition and Fees

State average tuition and fees for in-district undergraduates at two-year institutions varies more widely than at four-year institutions. For example, the highest state average is over five times the lowest state average tuition and fees (Table 7; p.20). Additional trends include:

- State average tuition and fees for in-district students ranged from \$1,380 (California) to \$7,071 (South Dakota).
- Two states reported an average decrease in in-district tuition and fees rates in the past year, including a 12.6 percent decrease in Arizona, and five additional states reported no change in tuition and fees.
- Three states reported an average annual increase greater than 5.0 percent in the past year.

Figure 4. State Average In-District Tuition and Fees at Two-Year Institutions, Weighted, 2020-21

COVID Impacts on Tuition and Fees

The tuition and fees setting process varies widely by institution, system, and state across the region, however, typically academic year tuition and fees are determined in the proceeding winter and spring. As a result, in 2020, tuition and fees setting in many cases occurred around the onset of the COVID-19 pandemic. In an effort to understand the impact of COVID-19 on tuition and fees and the tuition-setting process, WICHE added two voluntary questions to this year’s survey form specifically addressing the impacts of COVID-19 on the tuition and fees decision-making process and the rates themselves. Twenty-four respondents responded to these questions and in most cases, it was determined that COVID-19 had no impact on the 2020-21 rates or decision-making due to the rates being set prior to the pandemic. On the other hand, there were some institutions and systems that took actionable steps to reduce the financial burden for students and families in response to COVID-19. For example, Maricopa Community College District reduced 2020-21 tuition rates to a flat rate of \$1,020 per semester for all resident students enrolled in at least 12 credits per semester, resulting in a 20 percent decrease in tuition and fees rates in the past year for each institution in the district. Although these responses do not account for the entire landscape of the region, it is apparent that in most cases as 2021-22 tuition and fees are decided in the upcoming months that the ongoing COVID-19 crisis and resulting economic impacts could have a more significant impact on tuition and fees rates than what occurred in 2020-21.

As stated previously, the moderate increase in regional average tuition and fees over the past year was the lowest rate of change over the past decade, which signals a positive trend in postsecondary prices in the region. However, it is important to note that in many cases tuition and fees were decided upon in a different pre-COVID landscape. As discussed in the May 2020 *WICHE Insights, Tuition and Fees, Appropriations, and Financial Aid in the West: Strategic Alignment in Time of Uncertainty*, the economic impacts of COVID-19 are expected to be significant on state budgets and the upcoming legislative sessions could prove to have a more significant impact on tuition and fees rates in the upcoming academic year. Historically speaking, periods of economic downturn often coincide with decreases in state fiscal support for higher education and increases in tuition and fees which

strains ongoing affordability efforts in states. It is still too early to assess the economic impacts and what the current economic recession could mean for tuition and fees, however, a forthcoming Spring 2021 *WICHE Insights* will further explore tuition and fees trends as well as FY 2020 state fiscal support for higher education.

¹ WICHE asks respondents to report mandatory student fees as the required institutional fees that a majority of lower division full-time students are required to pay in addition to tuition, not including costs for books and supplies. This report does not include fees for graduate students due to wide variability in fees across graduate programs.

² This report presents published tuition and fees amounts as averages both unweighted and weighted by full-time equivalent enrollments. Unlike unweighted averages, which treat each institution equally no matter how big or small it is, enrollment-weighted averages provide a truer estimate of the published price a typical student faces based on enrollment patterns. All figures included in this Summary are enrollment-weighted. Appendix G provides more information regarding enrollment weighting.

³ Conversions to constant 2020 dollars use the Higher Education Cost Adjustment (HECA). See Appendix G for more information on HECA.

Note: The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. Averages for the University of California and California State University systems are provided in addition to the state average due to the variability in rates across the two systems. See the state notes for more information. Information about enrollment weights is located in Appendix G.

Note: The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. Averages for the University of California and California State University systems are provided in addition to the state average due to the variability in rates across the two systems. See the state notes for more information. Information about enrollment weights is located in Appendix G.

Notes: The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. Tuition and fees are presented with and without California. In California, the large number of two-year enrollments combined with their historically low matriculation fee structure distort otherwise regional patterns. See the state notes for more information. Information about enrollment weights is located in Appendix G.

Notes: Information about enrollment weights is located in Appendix G. See Appendix D for Carnegie Classification definitions.

State Notes

Two-Year Institutions

Four-Year Institutions

ALASKA

The University of Alaska does not have a separate community college system nor do any of the community campuses hold separate accreditation from the four-year university they are administratively connected to. However, associate degree-seeking students can be found at each university and community campus. For 2020-21, all associate degree-seeking students pay the same lower division per credit rate (\$234 for residents and \$800 for non-residents) at all universities and community campuses in the UA system. Fee rates at universities and community campuses are not available, and rates included in this report are for tuition only. These rates are excluded from weighted averages.

In 2020-21, Alaska resident students are charged \$234 per credit hour for lower division credits, \$282 per upper division credits, and \$513 per credit for graduate credits, with no limit on the number of credits. The figures reported here assume a course load of 30/24 credit hours for undergraduate/graduate for two semesters.

Effective Fall 2015, student health insurance has no longer been a mandatory fee at University of Alaska Fairbanks.

In 2020-21, non-resident undergraduate and graduate students pay a surcharge of \$566 per undergraduate/graduate credit hour. Therefore, they are charged \$800 per credit hour for lower division credits, \$848 for upper division credits, and \$1,079 per credit hour for graduate credits, with no limit on the number of credits. The figures reported here assume a course load of 30/24 credit hours for undergraduate/graduate for two semesters.

ARIZONA

Cochise County Community College District: All amounts indicated include mandatory registration and technology fees wherever these fees are not broken out separately.

Pima Community College: Differential tuition became effective January 2012 for select courses. Reported figures are base tuition and fees.

Yavapai College: Does not charge mandatory fees. 2020-21 rates reflect a reporting structure based on 24 credits per year. Previous years reflected 30 credits per year.

Central Arizona College: Does not charge mandatory fees. Decreases in non-resident rates are the result of changes in tuition structure beginning in 2019-20.

Eastern Arizona College: Does not charge mandatory fees.

Maricopa Community College District: In response to COVID-19, 2020-21 rates at institutions in the Maricopa Community College District reflects a temporary resident tuition discount for FY 20-21. Full-time students taking 12 credit or more per semester will be charged a flat rate of \$1020 per semester

Northland Pioneer College: In response to the COVID-19, tuition was reduced by 50 percent for AY 2020-21.

Arizona charges additional fees for certain programs: law, pharmacy, nursing, engineering, master's degree and certificate programs, and selected undergraduate degree programs.

Rates shown for Northern Arizona University and University of Arizona undergraduate (resident and non-resident) are new student rates and reflect a Fixed Tuition Program that keep base tuition rates (and mandatory fee rates at the University of Arizona) unchanged for eight semesters.

Beginning Fall 2019, ASU eliminated undergraduate program and class fees, and established a college fee. The college fee for resident students ranges from \$0-\$1,050 depending on college, and \$0-\$1,800 for non-resident undergraduate students, depending on college.

ASU's lower cost options at Gila Valley, Tucson, and Yuma are rural community college-based programs.

Undergraduate rates shown for ASU Polytechnic and ASU West are for freshman and sophomore students only.

Two-Year Institutions

Four-Year Institutions

CALIFORNIA

2020-21 resident fees were computed by WICHE using the \$46 per-unit fee.

2020-21 non-resident tuition and fees based on \$46/credit except for the non-resident tuition for quarter-based colleges in De Anza College, Foothill College, and Lake Tahoe Community College districts, which were based on \$31/credit.

2018-19 rates were not available for the City College of San Francisco (San Francisco district).

A student who is a resident of another state is charged an out-of-state or non-resident fee per unit. The fee is set by each community college district and is in addition to the statewide per unit enrollment fee. A student who is a citizen or resident of a foreign country can be charged an additional non-resident fee per unit strictly for capital outlay expenditures. The fee is set by each community college district but cannot exceed actual expenditures per Full-Time Equivalent (FTE) student in the prior fiscal year and cannot exceed 50 percent of the regular non-resident fee.

Compton Community College is now a part of El Camino College. They are shown separately because of differences in non-resident fees in earlier years.

Other fees including a Health Fee (~\$15-20), Student Activities Fee (~\$5-15), Technology Fee (~\$10), or other minor fees may apply and are not represented here.

California State University campuses: fees at 15 out of 23 campuses increased during 2020-21, for a campus average fee increase of 1.6% and fees at two campuses decreased in 2020-21.

California State University non-resident tuition is \$396 per unit at semester campuses and \$264 per unit at quarter campuses based on 30 units reported for full time undergraduate, 24 units for full time graduate. Prior to 2010-11 there was a full time maximum of \$11,160 which is no longer used.

Undergraduate students at the University of California have been required to show proof of health insurance since fall 2001. Undergraduate totals do not include waivable health insurance fees. Health insurance fees for 2020-21: Berkeley: \$3,536; Davis: \$2,712; Irvine: \$1,918; Los Angeles: \$2,606; Merced: \$2,299; Riverside: \$1,822; San Diego: \$2,076; Santa Barbara: \$3,453; Santa Cruz: \$2,922.

The University of California, San Francisco currently only offers graduate programs and, accordingly, does not appear on the list of undergraduate institutions.

Graduate totals do not include health insurance rates; 2020-21 health insurance fees were the following: Berkeley: \$5,682; Davis: \$5,124; Irvine: \$4,577; Los Angeles: \$4,458; Merced: \$3,223; Riverside: \$3,842; San Diego: \$3,855; San Francisco: \$5,985; Santa Barbara: \$4,293; Santa Cruz: \$4,938.

System averages are included in Table 4 and Table 5 in addition to the state averages due to the wide variation in tuition and fees rates between the systems.

COLORADO

All resident undergraduate students, except at Aims Community College and Colorado Mountain College: The resident undergraduate tuition amounts for all Colorado institutions do not include the \$2,310 voucher for which all Colorado residents taking a full-time undergraduate course load of 30 credit hours at public institutions in Colorado are eligible. Beginning with the 2005-06 academic year, Colorado implemented the College Opportunity Fund (COF). Instead of the direct appropriations to institutions, under COF all public institutions in the state will receive a stipend per credit hour on behalf of state residents who attend their institutions during the academic year as undergraduates and who apply for the voucher. Students are eligible for the COF voucher until they reach 145 credit hours of undergraduate study. The per-student allocation is set by the state's General Assembly during its budget process (<https://cof.college-assist.org/>).

All community colleges: higher rates apply to certain fields of study.

Aims Community College has local district tax standing. This means that the schools have different tuition structure for "in-district residents," "in-state residents," and "out-of-state" students. The values presented are for "in-district residents."

Colorado Mesa University: Prior to August 2011, Colorado Mesa University was known as Mesa State College. Colorado Mesa University graduate tuition levels are calculated at 18 credit hours for a full academic year. Tuition rates for both resident and out of state are for the teacher education programs.

Effective 2010, Metropolitan State University of Denver (formerly Metropolitan State College of Denver) began offering a limited selection of graduate degrees. 2017-18 and 2018-19 rates reflect an average rate of all graduate programs.

University of Colorado and branches: Higher rates apply to certain fields of study.

University of Colorado, Colorado Springs: Upper division undergraduate students pay a higher tuition rate.

Fort Lewis College: Effective 2014, Fort Lewis College began offering a limited selection of graduate degrees. In 2017-18, the institution decreased non-resident graduate tuition to the rate of resident tuition.

Adams State University has enacted a tuition guarantee for resident undergraduates and CU Boulder has had a tuition guarantee in place for non-resident undergraduates for a number of years and this year enacted a tuition guarantee for resident undergraduates.

In 2018-19 Adams State University reduced the non-resident graduate rate to be the same rate as the online graduate rate.

Two-Year Institutions

Four-Year Institutions

COLORADO (continued)

Previous years' rates have been updated to reflect reporting errors.

Beginning in 2019-20 Colorado Mountain College began reporting as a four-year institution and continued to report "in-district" rates.

Effective 2011, Colorado Mountain College began offering a limited selection of four-year degrees. Effective 2018, Colorado Mountain College merged their bachelor's degree tuition rates to match their associate degrees. In District: \$80 per credit hour; Out of state: \$453 per credit hour.

COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

The Carnegie Classification for CNMI's only public institution of higher education, Northern Marianas College, is Baccalaureate/Associates, but it is reported here as a two-year institution because its undergraduate instructional program is primarily associate degrees.

GUAM

Previous years data was adjusted to account for reporting differences.

HAWAI'I

The amounts reported here are based on 15 enrolled credits per semester (30 per year). The per-credit rates for academic year 2020-21 are \$131 (resident) and \$345 (non-resident) for all campuses.

Maui Community College was renamed University of Hawai'i Maui College effective February 2010 to reflect its four-year degree offerings. However, UH Maui College will continue to be included with the community colleges for reporting purposes.

IDAHO

College of Eastern (CEI) Idaho was previously named Eastern Idaho Technical College (EITC). Starting academic year 2018-19, CEI implemented a per credit tuition model with \$129 per credit for in-state undergraduate students. The 2018-19 increase in in-state tuition represents a shift in tuition policy, while the per credit cost is low, a student is charged for every credit, it no longer plateaus like the previously used model.

College of Southern Idaho: Prior to 2013-14, 12-15 credits were charged at the 12-credit rate; beginning with 2013-14, there is a straight per credit charge.

North Idaho College: Prior to 2013-14, there was a 12-18 credit hour cap; beginning with 2013-14, there was an additional charge per credit hour above 12 credits.

MONTANA

Resident tuition levels represent amounts charged to residents of the local district/county supporting the institution.

Two-Year Institutions

Four-Year Institutions

NEVADA

Tuition for College of Southern Nevada, Great Basin College, and Western Nevada College is reported for full-time lower-division enrollment only. Select baccalaureate programs are offered.

While College of Southern Nevada, Great Basin College, and Western Nevada College all have a Carnegie Classification of Baccalaureate/Associates, they are reported here as two-year institutions because they primarily award associate degrees and certificates.

Nevada State College began reporting resident and non-resident graduate tuition and fees rates for the first time in 2018-19.

NEW MEXICO

Luna Community College: As one part of the College's long-term sustainability plan, the President proposed the modest \$2 and \$6 credit hour increase for Resident and Non-resident tuition respectively for FY21. The Board of Trustees approved the recommendation. Furthermore, the approximate 6% annual increase was approved for a total of five years.

Mesalands Community College: The FY21 tuition at Mesalands is relatively low and so a small increase causes a seemingly high percentage increase (i.e. just \$3 per credit hour for In-state tuition increase equals 6%).

Northern New Mexico College is a four-year institution that grants baccalaureate and associate degrees (and certificates as well). When categorizing Northern New Mexico College among other public institutions in New Mexico, Northern New Mexico College is grouped as a Comprehensive University, along with Eastern New Mexico University, Western New Mexico University, and New Mexico Highlands University. It is categorized in this report as a four-year school.

University of New Mexico – Main Campus: The increase in undergraduate resident tuition and fees in 2020-21 reflects a base tuition increase of 2.6 percent, a reduction in the discount from 14 to 15 hours, and a 7.77 percent fees increase. Increases in resident graduate tuition and fees reflects a base tuition increase of 2.6 percent, folding the premium into the base rate, and a 7.77 percent increase in student fees.

NORTH DAKOTA

Williston State College: Tuition and fees rates assume a full-time load of 15 credits per semester. Until 2011-12, the 14th and 15th credits were free. The 15th credit was free in 2011-12; that free credit was eliminated in 2012-13.

Bismarck State College: Beginning Fall 2018 a new tuition model with differential program tuition rates eliminating all program fees and most course fees was introduced. This tuition model change includes a decrease in the non-resident tuition rate from a resident tuition rate factor of 2.67 to 1.5 and established an international tuition rate using a resident tuition rate factor of 1.75. While the Carnegie Classification for Bismarck State College is Baccalaureate/Associates, it is reported here as a two-year institution because its undergraduate instructional program is primarily Associates.

Mayville State University eliminated the notebook computer fee in 2016-17 (\$249 in 2015-16 and \$795 prior to 2015-16). Mayville State University tuition and fees increased 6 percent increase in 2019-20 due to implementation of a new tuition model eliminating all program and course fees, a 4 percent tuition increase and changed their international rate factor from 2.67 to 1.75.

Minot State University: The 2019-20 increase includes a 4 percent tuition rate increase along with the implementation of a new tuition model that eliminated most program and course fees.

Valley City State University includes a \$798 notebook computer fee through 2018-19 that was reduced to \$700 for 2019-20. Valley City State University's non-resident rate decrease is due to its new tuition model for 2019-20 that decreases the non-resident factor from 2.67 to 1.75. Valley City State University in 2019-20 adjusted its international student factor from 2.67 to 1.75 as part of their new tuition model.

North Dakota State University: The undergraduate and graduate rates that are reflected in the chart are the basic rates charged to most students at NDSU. Beginning fall 2012, under the new NDSU tuition model, the program fees for engineering, nursing, architecture, and pharmacy programs were integrated into differential tuition rates for these programs. These differential tuition rates are not reflected in the data shown. Beginning fall 2018 NDSU changed to a new tuition model, eliminating all program fees and most course fees. The new tuition model also reduced the non-resident tuition rate from a resident tuition factor of 1.5 to 1.2 and reduced the international tuition rate from a resident tuition factor of 2.67 to 1.75.

Dickinson State University: A significant change occurred in 2012-13, when non-resident students at Dickinson State University, excluding Minnesota students covered under the

Two-Year Institutions

Four-Year Institutions

NORTH DAKOTA (continued)

ND/MN reciprocity agreement and students in contiguous states and Canadian provinces, were charged 1.5 times the ND resident rate, rather than the previous charge of 2.67 times the resident rate. The 2019-20 increase in tuition and fees is due to implementation of a new tuition model that eliminated most program and course fees, includes a 4 percent tuition increase and increased the tuition cap from 12 to 13 credits.

University of North Dakota: The 2019-20 increase is due to a 4 percent tuition increase and implementation of a new tuition model that eliminates most program and course fees and changed the international rate factor from 2.67 to 2.00.

OREGON

Oregon Coast Community College is accredited through Chemeketa Community College.

District policy for Southwestern Oregon Community College allows a person to obtain residency in the district after residing in the district for 90 or more days.

Tillamook Bay Community College is accredited through Portland Community College.

Non-resident students from Idaho and Washington pay resident tuition at Eastern Oregon University.

Oregon Institute of Technology's (OIT) branch campus at Wilsonville assesses the same tuition but lower fees as OIT main.

Oregon State University's (OSU) branch campus at Bend assesses lower tuition for resident undergraduates and lower fees for all students.

Western Oregon University (WOU) continues to offer to incoming resident undergraduate freshmen and transfer students a one-time choice between WOU's base tuition rate and the WOU's fixed four-year tuition rate (WOU Promise). Students electing the Promise rate option will not be subject to increases for a four-year period. Amounts shown in the table represent the WOU base tuition rate.

SOUTH DAKOTA

Lake Area Technical College: Previous years' rates have been updated to reflect a consistent reporting structure based on 15 credit hours/semester.

Western Dakota Technical College: Additional required fees may be charged for facility, technology, and program costs.

Mitchell Technical College: 2007-08 to 2016-17 data was adjusted due to previous reporting errors.

All South Dakota Technical Colleges were previously named 'technical Institutes'.

Starting in FY 2017 the on-campus tuition rates included the university support fee.

Non-resident undergraduates pay a rate of 150 percent of the undergraduate resident rate (adopted by the Board of Regents beginning fall 2006). All new undergraduate non-residents and new transfers pay this rate except for Minnesota students, who pay the approved reciprocity rate.

Since the end of 2012 spring term, differential State-Support Tuition rates apply for the research institutions South Dakota School of Mines & Technology, South Dakota State University, and the University of South Dakota.

Two-Year Institutions

Four-Year Institutions

UTAH

Effective July 1, 2010, the College of Eastern Utah became a subsidiary unit of Utah State University as a Regional Campus site and was known as Utah State University-College of Eastern Utah. The name of the institution was change again and as of May 14, 2013 is Utah State University Eastern.

Utah State University-Moab and Utah State University-Blanding were included for the first time in 2020-21.

Effective July 1, 2008, Utah Valley State College became Utah Valley University.

The University of Utah charges a slightly lower tuition rate for undergraduate lower division courses than for upper division courses. This applies to both resident and non-resident students. The tuition rate difference is relatively small. In prior years, the average of lower and upper division tuition was submitted; however, since 2013-14 the lower division tuition rate amount is being reported.

The Utah System of Higher Education (USHE) allows differential tuition rates for 51 separate graduate programs. Graduate tuition and fees reported here are basic tuition and fee rates applicable to graduate programs within the USHE (not an average of the 51 separate graduate programs).

The graduate tuition and fee rates for Southern Utah University are based on the rates of its Master of Education programs.

The graduate tuition and fee rates for Weber State University are based on the rates of its Master of Criminal Justice and Education.

Effective Feb. 16, 2013, Dixie State College of Utah became Dixie State University. It is one of three institutions in the West with a Carnegie Classification of Baccalaureate/Associate Colleges, with an undergraduate instructional program of Associate's Dominant. It is listed as a 4-year institution for the purposes of this report.

WASHINGTON

In the state of Washington, "tuition and fees" is a statutorily defined term consisting of an "operating fee" and a "building fee." A reduction in tuition and fees enacted in 2015 was accompanied by an increase in discretionary funding appropriated by the 2015 Washington State Legislature, based on a policy that assumed there would be no reduction in the amount of funding provided to the community college system.

The non-resident tuition rates shown are the approved non-resident rate for each college. Individual colleges have authority to waive all or a part of the non-resident differential, and most of the colleges do exercise this waiver authority.

Lake Washington Technical College changed its name to Lake Washington Institute of Technology effective July 22, 2011.

The names of Seattle's three community colleges changed to North Seattle College, South Seattle College, and Seattle Central College in September 2014.

Washington's 2015-17 operating budget provided for tuition reductions, beginning with a 5 percent reduction of the operating fee the first year of the biennium for all colleges and universities and additional reductions in 2016 for the universities. Undergraduate tuition increased for the first time since 2015-16. Tuition is statutorily defined as operating fees plus building fees, and building fees were not reduced so the reductions in tuition for 4-year institutions are less than 5 percent.

Full-time tuition for undergraduates is for 45 quarter credit hours at Central Washington University, Eastern Washington University, Evergreen State College, University of Washington, and Western Washington University. Full-time tuition for undergraduates at Washington State University is for 30 semester credit hours.

Full-time tuition for graduates is for 30 quarter credit hours at Central Washington University, Eastern Washington University, Evergreen State College, University of Washington, and Western Washington University. Full-time tuition for graduates at Washington State University is for 20 semester credit hours.

Tuition and fees at all University of Washington and Washington State University campuses began reporting in 2019-20.

Graduate rates at the University of Washington reflect those for Graduate Tier I.

WYOMING

In the Wyoming Community College System, credit hours in excess of 15 per semester are now provided at no cost to the student. Previously, credit hours in excess of 12 credit hours were provided at no extra costs. This change impacts the annual change in tuition and fees between 2018-19 and 2019-20.

Fees for 2017-18 were provided by the system, while the total tuition and fees for 2016-17 reflect those published online by each campus. Changes in the annual tuition and fee rate may therefore reflect actual fee changes or differences in computation method.

Fee structures changed in 2018-2019 for several community colleges to reflect a per credit hour fee rather than a user fee. Some colleges do not cap fees at 12 credit hours like tuition, but charge fees for a cap of 15 or higher credit hours.

*Selected prior year tuition and fees rates may be adjusted, which may account for some year-over-year percent changes.

Appendix A

Undergraduate Full-time Equivalent (FTE) Enrollment at Four-Year Institutions

Institution	2018-19	2015-16	2010-11	8-Year Percent Change
Alaska

Note: See Appendix G for details about enrollment weights and FTE calculation. Institutions with no FTE enrollment count means that enrollments were not available in that year and that institution was excluded from state and regional enrollment-weighted averages.

Appendix D

The Carnegie Classification of Institutions of Higher Education, 2018

The Carnegie Classification™ has been the leading framework for recognizing and describing institutional diversity in U.S. higher education for the past four decades. Starting in 1970, the Carnegie Commission on Higher Education developed a classification of colleges and universities to support its program of research and policy analysis. Derived from empirical data on colleges and universities, the Carnegie Classification was originally published in 1973, and subsequently updated in 1976, 1987, 1994, 2000, 2005, 2010, 2015, and 2018 to reflect changes among colleges and universities. This framework has been widely used in the study of higher education, both as a way to represent and control for institutional differences, and also in the design of research studies to ensure adequate representation of sampled institutions, students, or faculty. This report is the first edition using the 2018 updated to the Carnegie Classification of Institutions of Higher Education.

Descriptions below were constructed using the language from the Carnegie Foundations web site for the 2018 classification schema. For full descriptions and more detailed information on classification procedures, refer to the Carnegie Classification of Institutions of Higher Education website available at <http://carnegieclassifications.iu.edu>.

Doctorate-granting Institutions

Institutions were included in these categories if they awarded at least 20 research/scholarship doctoral degrees during the update year and also institutions with below 20 research/scholarship doctoral degrees that awarded at least 30 professional practice doctoral degrees in at least 2 programs in the update year. As in previous editions, these categories were limited to institutions that were not identified as Tribal Colleges or Special Focus Institutions.

Level of research activity Doctorate-granting institutions were assigned to one of three categories based on a measure of research activity – Very high research activity, high research activity, and doctoral/professional universities. It is important to note that the groups differ solely with respect to level of research activity, not quality or importance. More detail on the methodology used in determining research activity level can be found at https://carnegieclassifications.iu.edu/classification_descriptions/basic.php.

Master's Colleges and Universities

Institutions were included in these categories if they awarded at least 50 master's degrees but fewer than 20 research doctorates (as defined above) in the update year. Some institutions with smaller master's programs were also included (see below). As in previous editions, these categories were limited to institutions that were not identified as Tribal Colleges or Special Focus Institutions.

Program size Master's program size was based on the number of master's degrees awarded in 2016-17. Those awarding at least 200 degrees were included among larger programs; those awarding 100–199 were included among medium programs; and those awarding 50–99 were included among smaller programs. The smaller programs group also includes institutions that awarded fewer than 50 master's degrees if (a) their Enrollment Profile classification is Exclusively Graduate/Professional or (b) their Enrollment Profile classification is Majority Graduate/Professional and they awarded more graduate/professional degrees than undergraduate degrees.

Baccalaureate Colleges

Institutions were included in these categories if bachelor's degrees accounted for at least 50 percent of all undergraduate degrees and they awarded fewer than 50 master's degrees in the update year. In addition, these categories were limited to institutions that were not identified as Tribal Colleges or as Special Focus Institutions.

Among institutions where bachelor's degrees represented at least half of all undergraduate degrees, those with at least half of bachelor's degree majors in arts and sciences fields were included in the "Arts & Sciences" group, while the remaining institutions were included in the "Diverse Fields" group.

Institutions with at least one baccalaureate program that conferred more than 50 percent of degrees at the associate's level are divided into two Baccalaureate/Associates Colleges categories: Mixed Baccalaureate/Associate's Colleges are those that conferred more than 10% of degrees at the baccalaureate level or higher (fewer than 90% associate's degrees); Associate's Dominant institutions are those that conferred fewer than 10% of degrees at the baccalaureate level or higher (at least 90% associate's degrees). For the purpose of this publication those institutions that have a Carnegie classification of Baccalaureate/Associates Colleges are placed in the category as selected by the institution or state agency.

Associate's Colleges

For institutions that conferred associate's degrees as the highest degree level offering based on a new reporting methodology introduced in the 2015 update. First, the institutions were separated according to whether their total awards (associate's degrees and certificates), were primarily in one or a few disciplinary fields. These fields were identified according to the first four digits of the CIP** code. For this publication, Associate's colleges are not further defined by the Carnegie Classifications. For further detail on the Associate's Colleges classification visit: <http://carnegieclassifications.iu.edu/methodology/basic.php>.

Special Focus Institutions

The special-focus designation was based on the concentration of degrees in a single field or set of related fields, at both the undergraduate and graduate levels. Institutions were determined to have a special focus with concentrations of at least 75 percent of undergraduate and graduate degrees. In some cases, the percentage criterion was relaxed if an institution identified a special focus on the College Board's Annual Survey of Colleges, or if an institution's only recognized accreditation was from an accrediting body related to the special focus categories.

Appendix E

Number of Public Four-Year Institutions by Carnegie Classification, 2020-21

Institutions by Carnegie Classification	Number of Institutions
North Dakota	
Dickinson State University	
Mayville State University	
Valley City State University	
Oregon	
Oregon Institute of Technology	
Baccalaureate/Associate's Colleges: Mixed Baccalaureate/Associate's	3
Colorado	
Colorado Mountain College	
New Mexico	
Northern New Mexico College	
Utah	
Dixie State University	
Baccalaureate Colleges: Arts & Sciences Focus	2
Arizona	
University of Arizona-Sierra Vista	
Colorado	
Fort Lewis College	
Special Focus Four-Year: Engineering Schools	1
South Dakota	
South Dakota School of Mines and Technology	
Special Focus Four-Year: Medical Schools & Centers	1
California	
University of California-San Francisco	
Carnegie Classification Not Available	8
Arizona	
Arizona State University - ASU Colleges at Lake Havasu City	
Northern Arizona Statewide Sites	
Arizona State University Community College Based Programs	
Oregon	
Oregon State University-Cascades Campus	
Washington	
Washington State University - Everett	
Washington State University - Spokane	
Washington State University - Tri-Cities	
Washington State University - Vancouver	
Total Number of Institutions	123

Notes: Classifications for each institution are based on 2018 Carnegie Classification. See Appendix D for more information.

Appendix F

Number of Public Two-Year Institutions by State, 2020-21

State	Number of Institutions
Alaska	--
Arizona	19
California	113
Colorado	14
CNMI	1
Guam	1
Hawaii	7
Idaho	3
Montana	9
Nevada	4
New Mexico	18
North Dakota	5
Oregon	17
South Dakota	4
Utah	5
Washington	34
Wyoming	7
Total Number of Institutions	261

Notes: The University of Alaska system does not have any separately accredited two-year institutions, however, associate degree seeking students can be found at all of the system's universities and community campuses.

APPENDIX G

Methodology

Since 1980, WICHE has collected tuition and fees data annually from public four- and two-year institutions in its 15-member states through a survey. In 2012, the U.S. Pacific territories and freely associated states became the 16th member of WICHE so data collection from the Commonwealth of the Northern Marianas began in 2013 and Guam in 2017.

The data are generally provided by staff at system offices or at state higher education governing and coordinating board offices; a small number of individual institutions provide their data directly. Each year, respondents are asked to provide current published tuition and fees data for resident and non-resident undergraduate, graduate, and professional students in public four-year colleges and universities, and for resident and non-resident students in public two-year colleges (specific instructions are provided later in this appendix). Data reflect tuition and fees for full-time students attending for the full academic year, except special sessions and summer terms. Respondents were asked to indicate tuition and mandatory fees separately. In addition, they are asked to verify and, if necessary, correct previously reported data. They also provide additional interpretive information about specific circumstances in their states or institutions that is shown in the State Notes.

The 2020-21 survey was emailed to state and institutional staff in July 2020. Surveys were returned by October 2020. The survey data were reviewed for possible errors, and problems were discussed with the staff in the appropriate office. WICHE used the 2018 "Basic Classifications" of The Carnegie Classification of Institutions of Higher Education for breakdowns by institutional type in this edition of *Tuition and Fees in the West: 2020-21*. More information on the Carnegie classifications is available at <http://carnegieclassifications.iu.edu/>.

The 2020-21 survey included two voluntary subset of questions related to the impact of COVID-19 on the tuition setting process and the tuition and fees rates. A brief overview of those responses is included in the summary (pg. 2). Questions are included below.

Enrollment-Weights

This year's edition provides enrollment-weighted averages of tuition and fees in addition to the unweighted averages historically reported. When available, WICHE used the *Fall Enrollment Survey* from the National Center for Education Statistics' (NCES) Integrated Postsecondary Education Data System (IPEDS) to determine full-time equivalent (FTE) enrollment for each public two-year and four-year institution in the West. The weighted averages used FTE by institution as the weights and FTE was calculated as equal to the full-time enrollment plus 1/3 of the part-time enrollment as reported in IPEDS for the applicable year. 2020-21 and 2019-20 enrollment weights are set equal to the Fall 2018 FTE enrollment counts since the most recent years' enrollment data were not available before publication. Both resident and non-resident rates are weighted using the same FTE enrollment, as FTE enrollment is not able to be distinguished between residency status.

Fees

WICHE calculated average mandatory fees for each institution, state, and the region. The one-, five-, and 10-year fees rates are displayed, as well as what percent of total tuition and fees they represent. For this survey, fees are the required institutional fees that a majority of lower-division full-time students are required to pay in addition to tuition, not including costs for books and supplies. This report does not include fees for graduate students due to wide variability in fees across graduate programs.

Converting Current to Constant Dollars

WICHE calculates constant dollar amounts using the Higher Education Cost Adjustment (HECA), calculated by SHEEO, to adjust for the effects of inflation when observing long-term trends in tuition and fees. For this year's report, historical data was calculated to 2020 dollars for the WICHE regional averages in Tables 2a and 2b. The 2020 HECA figure is preliminary at the time of publication. The procedure for converting current to constant dollars is included below.

Procedure for Converting Current Dollars To Constant Dollars

The formula for the constant dollar conversion is:

$$TF_{\text{Constant}} = \frac{TF_{\text{Current}}}{(HECA_{\text{Base}} / HECA_{\text{Current}})}$$

For example, the procedure to convert average resident undergraduate tuition in 2015-16 shown in Table 1a, \$8,010 to 2020 constant dollars is as follows:

$$TF_{\text{Constant}} = \frac{8,010}{(90.15/100)}$$

where the HECA value for 2020 is 100 and the HECA value for 2015 is 90.45

SURVEY INSTRUCTIONS

Tuition and Required Fees in the West, 2020-21

SECTION 1 - Tuition & Fees

Please complete and return this form by August 6, 2020 or as soon as tuition and fee data for 2020-21 are determined. Please also provide your contact information in Section 3. For any questions or issues, please contact: Colleen Falkenstern at WICHE at 303.541.0313 or cfalkenstern@wiche.edu.

For each institution, indicate separately the 2020-21 tuition and required fees amount for full-time undergraduate students (and graduate students, as appropriate). Provide amounts for a full academic year when applicable (definitions are in Section 4 below). Please verify the total of tuition and fees for 2019-20, 2015-16 and 2010-11, which we received in previous years and will publish this year alongside 2020-21 rates to show 1-, 5- and 10-year changes. Add any newly established public institutions or indicate name changes for existing institutions. As necessary, provide or edit endnotes using Endnote numbers in Section 1 and Endnote text in Section 2.

SECTION 2 - Endnotes

Please review the endnotes to be included in this year's publication (if any) and indicate next to each endnote, 'No Change', 'Change' or 'Delete' (by typing in the cell or choosing from the drop-down). Add any new endnotes below the existing endnotes; and indicate the associated endnote number on the data row above.

SECTION 3 - Contact Information for Person Completing the Form

SECTION 4 - Definitions

For the purposes of this survey, the following definitions apply:

- Tuition is the total dollar amount paid by a full-time student for a full academic year, usually two semesters, three quarters, or two trimesters.
- Required fees include the institutional fees that a majority of full-time students are required to pay in addition to tuition. Costs for books and supplies should not be included.
- If there are differences in tuition and fees for lower division and upper division students, please provide lower division tuition and fees.
- Full-time undergraduate tuition and fee rates should be based on 15 credit hours per semester or equivalent. (Please provide an endnote(s) if your calculation differs from how data have been submitted in previous years.)
- Full-time graduate tuition and fee rates should be based on 12 credit hours per semester or equivalent. (Please provide an endnote(s) if your calculation differs from how data have been submitted in previous years.)

SECTION 5 – COVID Implications (*Optional*)

These voluntary questions are intended to provide context on how the ongoing COVID-19 crisis and subsequent economic challenges have had implications on the tuition-setting process in your state, system or institution.

1. To what extent did the COVID-19 crisis impact the tuition-setting process (i.e. timing, decision-making, etc)?
2. How did COVID-19 impact the provided 2020-21 tuition and fees rate (i.e. variance in annual change)?
