PROFESSIONAL STUDENT EXCHANGE PROGRAM

PSEP

Helps students pursuing careers in **10 HEALTH FIELDS**. They can enroll in programs in the WICHE region and receive substantial tuition support from their home state/territory.

51 Hawai'i students paid reduced tuition for health care studies not offered by public institutions in their home state.

62% of Hawaii's PSEP graduates returned home to practice (2012-21). Students are contractually required to return.

Hawai'i's institutions and their local economies benefit too.

This year, 1 PSEP student enrolled in a program located in Hawai'i. The institution received \$35,700 in support fees to reduce the student's tuition costs.

2,160% ROI gained on Hawai'i's WICHE annual dues (\$169,000/FY 2025)

WESTERN ACADEMIC LEADERSHIP ACADEMY is a yearlong professional development program for academic leaders aspiring to become chief academic officers in the WICHE region. Two cohort members from Hawai'i institutions have participated in the Academy since its inception in 2015.

WICHE offers student health and technology contracts through a **COST-SAVINGS PROGRAM** with the Midwestern Higher Education Compact (MHEC) to colleges and universities, K-12 school districts, local and state municipalities, and nonprofit organizations with an education emphasis. Last year, entities that used these contracts saved 9% over what they otherwise would have outside this joint purchasing arrangement. The total savings in Hawai'i was \$56,266.

Optimal behavioral health care

Two Hawai'i state departments — the Department of Education and the Department of Health —

provide funding to support the WICHE Behavioral Health Program's (BHP) ongoing development and operations of the **HAWAII PSYCHOLOGY INTERNSHIP PROGRAM (HI-PIC)** with numerous sites participating in the internship. A primary goal of the internship is to increase the number of psychologists in Hawai'i and build the state's behavioral health workforce.

The Hawai'i Department of Education also contracts with the WICHE BHP to provide recruitment and contracting of clinical psychologists to ensure all program requirements for supervision and support of staff, students, and program fidelity are maintained for **WEST HAWAII SCHOOL BASED BEHAVIORAL HEALTH (WH-SBBH)** program. The WH-SBBH program has historically faced significant challenges recruiting and retaining professionals for service provision because of the rural and workforce challenges that leave WH-SBBH without the needed professional credentials to supervise and train new SBBH personnel. The Hawai'i Department of Education has also contracted with the WICHE Behavioral Health Program to provide recruitment of School-based Behavioral Health and School Social Worker professionals.

TOGETHER WITH VETERANS (TWV) – RURAL VETERAN SUICIDE PREVENTION PROGRAM enlists rural Veterans and local partners to reduce Veteran suicide in their own community. Funded by the U.S. Department of Veterans Affairs and administered by the WICHE BHP, TWV provides individualized coaching, tools, training, technical assistance, and resources, supporting 16 total communities in the WICHE region, representing 11 Western states. The TWV Program has one site in Hawai'i, and has served over 7,270 rural veterans.

Sound public policy

Hawai'i participates in the **STATE AUTHORIZATION RECIPROCITY AGREEMENT (SARA)** through WICHE. This voluntary agreement provides reciprocity for the state authorization of distance education. WICHE Commissioners have been strong advocates for protecting the state voice in important governance decisions affecting this agreement and staff continue to support participating states and improving student protections while bolstering access.

Created by the WICHE Commission in 1995, the **LEGISLATIVE ADVISORY COMMITTEE (LAC)** works to strengthen state-level postsecondary policymaking across the West. Members are legislators appointed

by each state, territory, or freely associated state in the WICHE region; they meet annually to explore emerging policy issues and develop strategies for interstate collaboration.

KNOCKING AT THE COLLEGE DOOR is the leading U.S. resource for projections of high school graduates. Released in December 2024, the newest edition is essential for postsecondary policymakers, planning and workforce efforts, and economic development. Visit wiche.edu/knocking to access reports, interactive dashboards, webinars, presentations, as well as state-level data.

DATA EXPERTS WICHE staff provide analysis on finance, financial aid, articulation and transfer, strategic planning, student demographics, and more, as well as host peer-to-peer calls of state, system, and institutional chief academic officers to identify areas of potential collaboration and resource sharing across the West.

DATA RESOURCES WICHE offers curated data and policy resources to support better-informed decision-making. WICHE's research projects and collaborations cover postsecondary completion, health workforce development, behavioral health in postsecondary education, open educational resources (OER), state finance, prior learning assessment, and more.

- ▶ **Tuition and Fees in the West** includes tuition, fees, and enrollment data about 350+ public institutions in the West.

CHIEF ACADEMIC OFFICERS NETWORK Staff from the University of Hawai'i System office participate in regular collaborative calls with colleagues around the region.

Innovative solutions

WCET – THE WICHE COOPERATIVE FOR EDUCATIONAL TECHNOLOGIES is the leader in the practice, policy, and advocacy of digital learning in higher education. Its growing membership includes institutions, higher education agencies and systems, nonprofit organizations, government agencies, and corporations in all U.S. states and several Canadian provinces. WCET members include:

- ▶ Kapi'olani Community College
- ▶ University of Hawai'i System
- ▶ University of Hawai'i - West O'ahu

Gloria Niles, University of Hawai'i System, serves on the WCET Steering Committee as vice chair and on the Executive Council.

WICHE has convened the **OERWEST NETWORK**, which is part of a nationwide collaborative to scale the development and adoption of free course materials. Open educational resources (OER) have shown promise in improving student outcomes, particularly for students whom the high cost of textbooks can be a barrier to postsecondary success.
