Western Interstate Commission for Higher Education

About WICHE

The Western Interstate Commission for Higher Education (WICHE) is a regional interstate higher education compact of 15 Western states and the U.S. Pacific Territories and Freely Associated States. Since 1953, WICHE has focused on its mission of expanding educational access and excellence for all residents of the West. By promoting innovation, cooperation, resource sharing, and sound public policy, WICHE strengthens higher education's contributions to the region's social, economic, and civic life.

Our Mission

The member states and Pacific Island members of the Commission work collaboratively to expand educational access and excellence for all residents of the West. By promoting innovation, cooperation, resource sharing, and sound public policy among states and institutions, WICHE strengthens higher education's contributions to the region's social, economic, and civic life.

Our Vision

WICHE envisions a future where regional collaboration among the states and Pacific Islands strengthens the West through higher education and workforce development.

Policy Analysis and Research

This publication was prepared by the Policy Analysis and Research unit. WICHE's Policy Analysis and Research unit offers resources to support better-informed decision-making, principally at the state level. Topics for its numerous research projects and collaborations include postsecondary completion, closing attainment gaps, adult learners, and multistate data-sharing to support educational planning and workforce development. The unit's staff serve as subject matter experts on higher education issues including finance, state and federal financial aid, articulation and transfer, strategic planning, and student demographics. Publications, including the *WICHE Insights* series, explore a range of significant policy issues. Unit staff members undertake long-term grant-funded projects, collaborate with regional and national partners, and provide short-term technical assistance throughout the WICHE region.

Summary

Tuition and Fees in Public Higher Education in the West: 2026-27 provides comprehensive data about the tuition and fee rates published by public higher education institutions in the West for academic year (AY) 2026-27, including changes in tuition and fee rates over the past one-, five-, and 10-year periods.[1] The tuition and fees included in this report can be viewed in an interactive dashboard and downloaded for further analysis at wiche.edu/policy-research/data-resources/tuition-fees.

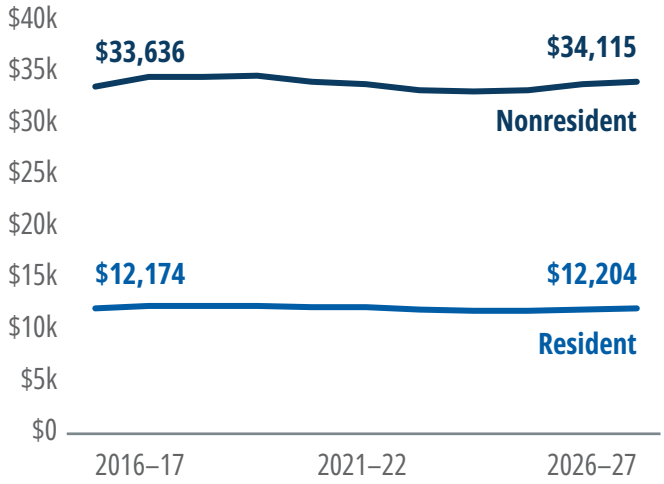

Tuition and Fees at Public Four-Year Institutions

Regional Trends

The regional average tuition and fees for resident undergraduates are $12,204 in AY 2026-27, an increase of $515 (4.4%) compared to AY 2025-26 (Table 1b).[2] When adjusting for inflation, regional average tuition and fees increased by $82 (0.7%) in the past year.[3] Additionally:

- Tuition and fees for nonresident undergraduate students average $34,115 in AY 2026-27 and increased at a similar rate (4.1%) as resident tuition and fees in the past year.
- When adjusting for inflation, average resident undergraduate tuition and fees increased 0.2% from AY 2016-17 but decreased by 0.5% since AY 2021-22 (See Figure 1).

Figure 1. Regional Average Undergraduate Tuition and Fees at Public Four-Year Institutions, AY 2016-17 to AY 2026-27, Constant 2026 Dollars

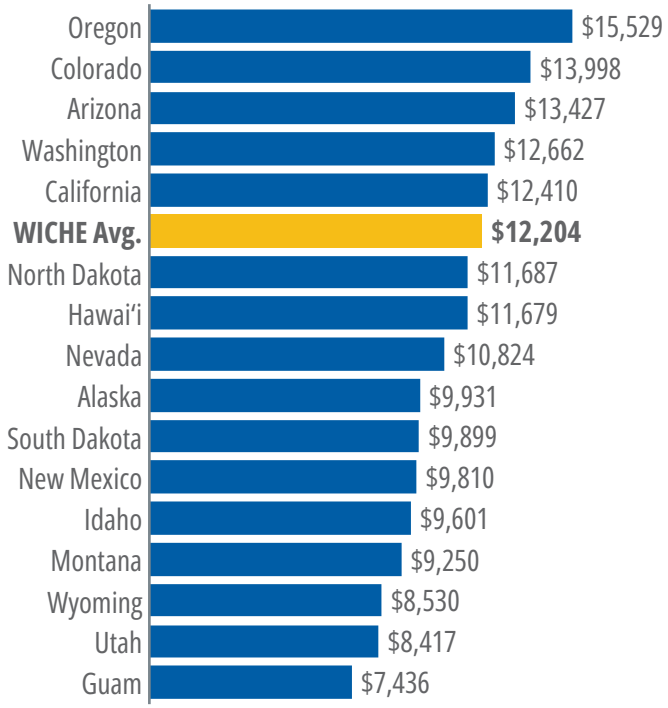

State Variation in Resident Undergraduate Tuition and Fees

Regional average tuition and fees provide a benchmark for trends in price for students and families in the region; however, it is important to note that state tuition and fee trends vary significantly, including both average rates and changes in reported charges.[4] For example:

- In AY 2026-27, state average tuition and fees for resident undergraduates range from $7,436 to $15,529 (Figure 2).
- Between AY 2025-26 and AY 2026-27, tuition and fees remained the same in Guam, while all other states reported an average annual increase between 0.9% and 9.3% (Table 3b).
- Tuition and fees vary even more across institutions and systems within a state, as shown in Table 4a. For example, resident undergraduate tuition and fees at Eastern Washington University are $8,158, while tuition and fees at Washington State University are $14,361.

Figure 2. State Average Resident Tuition and Fees at Four-Year Institutions, Weighted, AY 2026-27

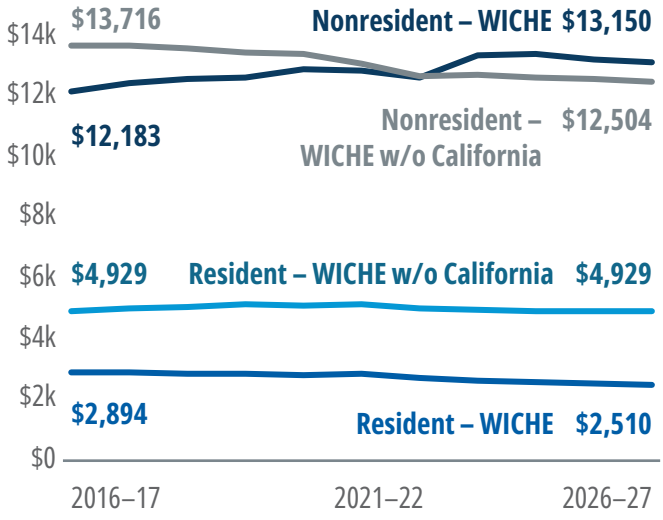

Tuition and Fees at Public Two-Year Institutions

Regional Trends

Average tuition and fees for resident students at public two-year institutions in the WICHE region (excluding California and Alaska) are $4,929 in AY 2026-27 (Table 1b).[5] Adjusted for inflation, the AY 2026-27 resident rate decreased by $20 (0.4%) from the prior year (Table 2b). Additionally:

- When including California, the regional average tuition and fees for resident students are $2,510 in AY 2026-27, which is an increase of $50 (2.0%) compared to AY 2025-26 (Table 1b). Throughout this report, tuition and fees are displayed with and without California to account for the impact of California's community colleges, which enroll over 50% of the region's two-year students and charge a low enrollment fee.
- Average nonresident tuition and fees are $12,504 (excluding California and Alaska) in AY 2026-27. When including California, average nonresident tuition and fees are $13,150.
- When adjusting for inflation, regional average resident tuition and fees (including California) decreased by 13.3% from AY 2016-17 and decreased 12.5% from AY 2021-22. When excluding California, which has not changed its resident enrollment fee in the past decade, average tuition and fees remained the same as AY 2016-17 rates after adjusting for inflation.

Figure 3. Regional Average Undergraduate Tuition and Fees at Public Two-Year Institutions, AY 2016-17 to AY 2026-27, Constant 2026 Dollars

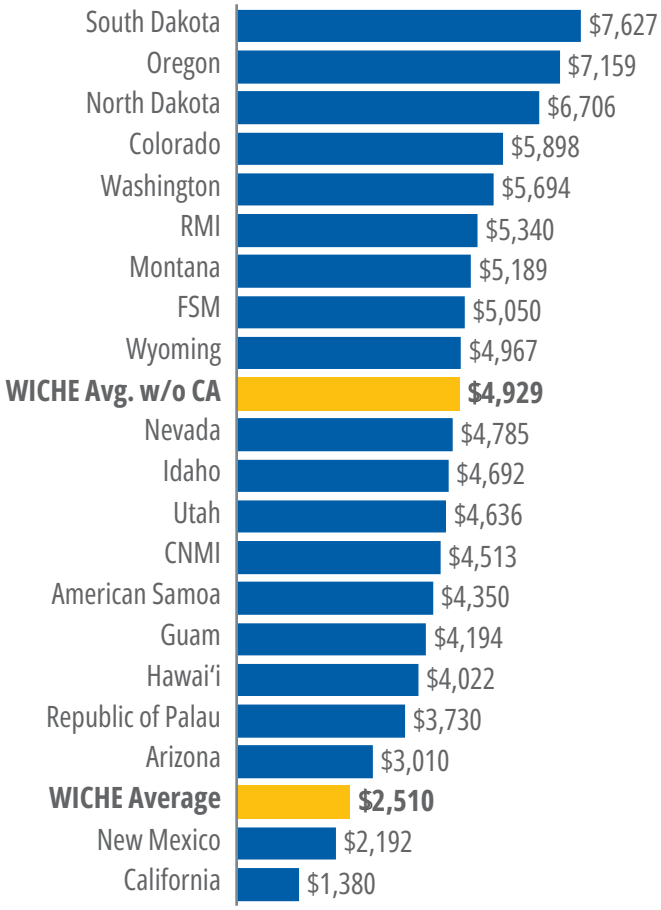

State Variation in Undergraduate Tuition and Fees

State average tuition and fees for resident undergraduates at two-year institutions vary more widely than at four-year institutions. For example, the highest state average is more than five times the lowest (Figure 4). Additional trends include:

- State average tuition and fees for resident students ranged from $1,380 to $7,627.

- Five states reported no change in tuition and fees over the past year.
- Among those with a reported increase, state average tuition and fee increases ranged from 0.1% to 11.8% between AY 2025-26 and AY 2026-27.

Figure 4. State Average Resident Tuition and Fees at Two-Year Institutions, Weighted, AY 2026-27

Conclusion

While unadjusted tuition and fees have increased for resident and nonresident undergraduates by 36.4% and 38% over the last decade, respectively, the tuition burden for students in the West has not changed relative to inflation. After adjusting for inflation, there was a small increase (0.7%) in resident tuition and fees at public four-year institutions in the West for AY 2026-27. However, over the past decade, tuition and fees have increased by only 0.2%, or $30. This shows that, on average, tuition and fees at four-year institutions are rising at a rate similar to inflation.

When considering two-year colleges, tuition and fees have increased at a lower rate than inflation, as rates for resident students have decreased 13.3% over the past ten years. This is driven largely by the consistent fees charged by California's community colleges; when excluding California, tuition and fees are unchanged. This demonstrates similar consistency in tuition burden as for four-year institutions.

It is important to remember that reported tuition and fee rates do not offer a full picture of what a student pays for college. For example, the published rates do not account for other direct costs students incur, including books, housing, basic needs, as well as course and programmatic fees. Additionally, these data do not account for financial aid, a critical component in reducing student costs. A forthcoming Spring 2027 *WICHE Insights* will explore the tuition and fees trends, as well as cost of attendance overall, in more detail.

Endnotes

1 WICHE asks respondents to report mandatory student fees as the required institutional fees that most of the lower-division full-time students are required to pay in addition to tuition, not including costs for books and supplies. This report does not include fees for graduate students due to wide variability in fees across graduate programs.

2 This report presents published tuition and fee amounts as averages both unweighted and weighted by full-time equivalent (FTE) enrollments. Unlike unweighted averages, which treat each institution equally no matter its size, enrollment-weighted averages provide a truer estimate of the published price a typical student faces based on enrollment patterns. All figures included in this Summary are enrollment weighted. Appendix H provides more information regarding enrollment weighting.

3 Conversions to constant 2026 dollars use the Higher Education Cost Adjustment (HECA). See Appendix H for more information on HECA.

4 Throughout this report, the term "state" refers to state, territory, or freely associated state.

5 Alaska is excluded from the weighted regional average tuition and fees, as there are no separately accredited two-year institutions in Alaska. An unweighted average tuition and fees rate is included in Table 7a, as all students seeking an associate degree at a University of Alaska institution are charged the same lower-division rates as students seeking a bachelor's degree. Throughout this report, average tuition and fees at two-year institutions are reported with and without California. California's low enrollment fee and large enrollment impact regional trends.

Note: All rates are in current dollars. The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. See Appendix H for more details about enrollment weights. Averages for the University of California and California State University systems are provided in addition to the state average due to the variability in rates across the two systems. See the State Notes for more information.

Note: All rates are in current dollars. The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. See Appendix H for more details about enrollment weights. Averages for the University of California and California State University systems are provided in addition to the state average due to the variability in rates across the two systems. See the State Notes for more information.

Notes: All rates are in current dollars. The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. Tuition and fees are presented with and without California. In California, the large number of two-year enrollments combined with their historically low matriculation fee structure distort otherwise regional patterns. See the State Notes for more information. Information about enrollment weights is located in Appendix H.

Notes: All rates are in current dollars. The enrollment-weighted average tuition and fees and change in enrollment-weighted rates provide a more accurate average price a student pays in each state and the average change over time. Tuition and fees are presented with and without California. In California, the large number of two-year enrollments combined with their historically low matriculation fee structure distort otherwise regional patterns. See the State Notes for more information. Information about enrollment weights is located in Appendix H.

Notes: All rates are in current dollars. Information about enrollment weights is located in Appendix H. See Appendix D for Carnegie Classification definitions.

State Notes

Alaska

Two-Year Institutions

Alaska Universities and Community Campuses: The University of Alaska (UA) System does not have a separate community college system, nor do any of the community campuses hold separate accreditation from the four-year university they are administratively connected to. Associate degree-seeking students can be found at each university to which they are administratively connected. For AY 2026-27, all associate degree-seeking students pay the same lower division per-credit rate ($251 for residents and $875 for nonresidents) at all universities and community campuses in the UA system offering associate degrees. These rates are excluded from weighted averages.

Four-Year Institutions

University of Alaska Anchorage (UAA): Alaska residents are charged $251 per credit for lower-division credits, $302 per upper-division credit, and $549 per credit for graduate credits. Nonresidents pay $875 per credit for lower-division credits, $926 per credit for upper-division credits, and $1,173 per credit for graduate credits.

University of Alaska Fairbanks (UAF): Alaska residents attending select UAF campuses (Rural College and Troth Yeddha' campus) are charged $310 per credit for lower-division credits, with those attending other campuses (CTC, Bristol Bay, Chukchi, Interior Alaska, Kuskokwim, Northwest Campuses) pay $251 per lower-division credit.

Resident students attending UAF are charged $310 per credit for upper-division courses and $577 per credit for graduate credits, with no limit on the number of credits. The reported rates assume a course load of 30/24 credit hours for undergraduate/graduate enrollment for two semesters.

Nonresident undergraduates pay $875 per credit for lower-division credits and $926 per credit for upper-division courses. Nonresident students taking lower- or upper-division courses at the Rural College and Troth Yeddha' campus are charged $934 per credit, and are charged $1,201 for graduate credits, with no limit on the number of credits.

University of Alaska Southeast (UAS): All undergraduate students receive in-state tuition regardless of residency through the "Alaska Unlocked" program. Students are charged $251 per credit for lower-division credits, $302 per upper-division credits, and $549 per credit for graduate credits. Nonresident graduate students are charged $1,173 per credit.

American Samoa

Two-Year Institution

American Samoa Community College (ASCC): ASCC calculates its tuition and fees based on eight three-credit courses for the year. Rates for AY 2026-27 were calculated from information provided on the institution's website.

Arizona

Two-Year Institutions

Central Arizona College (CAC): CAC does not charge mandatory fees. Tuition rates were reduced to $0 in AY 2020-21 and the increases since then reflect a return to a pre-COVID-19 tuition rate.

Cochise College: All amounts indicated include mandatory registration and technology fees wherever these fees are not broken out separately. Tuition and fees rates for AY 2026-27 were calculated from information provided on the institution's website.

Eastern Arizona College (EAC): EAC does not charge mandatory fees. Tuition and fees

rates for AY 2026-27 were calculated from information provided on the institution's website.

Northland Pioneer College (NPC): In AY 2020-21 a 50% tuition waiver was provided to help students during the pandemic. In AY 2021-22 the NPC District Governing Board decided to remain steady in its tuition-setting policy of 2% year-over-year increase. However, for AY 2021-22 a reduced in-district rate was set at a lower per-credit amount to acknowledge resident-specific hardships.

Maricopa Community Colleges: In response to COVID-19, AY 2020-21 rates at institutions in the district reflect a temporary resident tuition discount for AY 2020-21. Full-time students taking 12 credits or more per semester were charged a flat rate of $1,020 per semester. AY 2021-22 rates reflect a return to the $85/credit charge.

Pima Community College: Reported figures are base tuition and fees. Beginning this year, Pima Community College will offer 4-year degrees with tuition rates assessed at 150% of the 2-year tuition amounts for upper-division classes for both residential and nonresidential students. The fees are unchanged.

Yavapai College: Yavapai College does not charge mandatory fees. Prior to AY 2020-21 tuition rates reflected 30 credits per year and AY 2020-21 to current reflect 24 credits per year.

Four-Year Institutions

All Institutions: Arizona charges additional fees for certain programs: law, pharmacy, nursing, engineering, master's degree and certificate programs, and selected undergraduate degree programs. Program fees were not included in the calculations.

Arizona State University (ASU) Digital Immersion: For resident undergraduate and graduate students, tuition is capped at the in-person Tempe campus rate. Nonresident rates are calculated using 30 credits for undergraduate students and 12 credits for graduate students.

California

Two-Year Institutions

All Institutions: AY 2026-27 resident fees were computed by WICHE using the $46 per-unit enrollment fee. In accordance with Education Code 76300, the enrollment fee is reported in this report as a fee. Nonresident fees include the per-credit enrollment fee in addition to any capital outlay fees charged by the community college district.

A student who is a resident of another state is charged an out-of-state or nonresident charge per unit. The fee is set by each community college district and is in addition to the statewide per-unit enrollment fee. A student who is a citizen or resident of a foreign country can be charged an additional nonresident fee per unit strictly for capital outlay expenditures. The fee is set by each community college district but cannot exceed actual expenditures per Full-Time Equivalent (FTE) student in the prior fiscal year and cannot exceed 50% of the regular nonresident fee. Other fees, including a Health Fee (~$15-20), Student Activities Fee (~$5-15), Technology Fee (~$10), or other minor fees, may apply and are not represented here.

Four-Year Institutions

System averages are included in Table 3 and Table 5 in addition to the state averages due to the wide variation in tuition and fee rates between the systems.

California State University (CSU) System: Fees at all campuses increased during AY 2026-27 for a campus average increase of 9%. CSU nonresident tuition is $471 per unit at semester campuses based on 30 units reported for full-time undergraduate and 24 units for full-time graduate enrollment.

California Polytechnic (Cal Poly) Maritime Academy: Effective 2026, CSU Maritime Academy became Cal Poly Maritime and integrated with California Polytechnic State University-San Luis Obispo. Tuition and fees are no longer reported separately for Cal Poly Maritime. Students attending Cal Poly Maritime are charged the same rates as those attending California Polytechnic State University-San Luis Obispo. Historical data remain reported separately.

University of California (UC): Effective fall 2022, tuition and certain fees are assessed to undergraduate students on a cohort basis. For example, the AY 2026-27 levels for undergraduate students reflect tuition and fees assessed to the undergraduate cohort first enrolled in AY 2026-27. Charges for each entering undergraduate cohort are expected to be higher than the amounts charged to prior cohorts but remain flat for the duration of a student's enrollment, up to six years.

The undergraduate cohort first enrolled in AY 2025-26 are assessed $654 (resident) and $2,322 (nonresident) less than the levels indicated and assessed to the 2026-27 cohort. Undergraduate cohort first enrolled in AY 2024-25 are assessed $498 (resident) and $3,900 (nonresident) less than the levels indicated and assessed to the 2025-26 cohort. The undergraduate cohort first enrolled in AY 2023-24 is assessed $684 (resident) and $2,310 (nonresident) less than the levels indicated and assessed to the AY 2024-25 cohort. The undergraduate cohort that first enrolled in AY 2022-23 is assessed $648 (resident) and $2,196 (nonresident) less than the levels indicated and assessed to the 2023-24 cohort. Undergraduate cohorts first enrolled in AY 2021-22 or earlier are assessed $534 (resident) and $1,806 (nonresident) less than the levels indicated and assessed to the AY 2022-23 cohort.

Undergraduate students at the University of California are required to show proof of health insurance. Undergraduate and graduate totals do not include waivable health insurance fees. Below are the health insurance fees for 2026-27:

Institution	Undergraduate	Graduate
Berkeley	$5,066	$8,206
Davis	$3,924	$8,820
Irvine	$3,214	$7,772
Los Angeles	$3,886	$7,517
Merced	$2,995	$5,455
Riverside	$2,823	$6,269
San Diego	$3,195	$6,660
San Francisco	n/a	$11,914
Santa Barbara	$4,009	$9,385
Santa Cruz	$4,209	$7,455

The University of California-San Francisco (UCSF): UCSF only offers graduate programs and therefore does not appear on the list of undergraduate institutions.

Colorado

Two-Year Institutions

Aims Community College: Aims Community College has local district tax standing, which means that the institution has different rates for "in-district residents," "in-state residents," and "out-of-state" students. The values presented for resident rates are for "in-district residents." Tuition and fees rates for AY 2026-27 were calculated from information provided on the institution's website.

All Other Institutions: All resident tuition rates account for the College Opportunity Fund (COF) stipend. Instead of direct appropriations to

institutions, under COF, all public institutions in the state will receive a stipend per credit hour on behalf of qualifying state residents who attend eligible classes at their institutions during the academic year as undergraduates. Students are eligible for the COF voucher until they reach 145 credit hours of undergraduate study. The per-student allocation is set by the state's General Assembly during its budget process (https://cof.college-assist.org/).

Four-Year Institutions

All institutions: All resident tuition rates account for the College Opportunity Fund (COF) stipend. Instead of direct appropriations to institutions, under COF, all public institutions in the state will receive a stipend per credit hour on behalf of qualifying state residents who attend eligible classes at their institutions during the academic year as undergraduates. Students are eligible for the COF voucher until they reach 145 credit hours of undergraduate study. The per-student allocation is set by the state's General Assembly during its budget process (https://cof.college-assist.org/).

Adams State University: In AY 2018-19 Adams State University reduced the nonresident graduate rate to be the same rate as the online graduate rate.

Colorado Mesa University: Graduate tuition rates for both resident and nonresident are for business, teacher education, occupational therapy, and athletic training, sport management, and criminal justice programs.

Colorado Mountain College: Effective 2018, Colorado Mountain College merged its bachelor's degree tuition rates to match its associate degrees.

Fort Lewis College: In AY 2017-18, the institution decreased nonresident graduate tuition to the rate of resident tuition.

Metropolitan State University of Denver: AY 2024-25 graduate tuition and fee rates represent School of Education rates.

University of Colorado Boulder: Tuition rates reflect the four-year guarantee for new first-year and transfer students. Continuing undergraduates have 0% increase.

University of Colorado Colorado Springs: Upper-division undergraduate students pay a higher tuition rate.

Western Colorado University: AY 2024-25 graduate tuition and fees reflects the annual cost of the Master of Education.

Commonwealth of the Northern Mariana Islands

Two-Year Institution

Northern Marianas College (NMC): NMC has the Carnegie Institutional Classification of Associate/Baccalaureate, but it is reported here as a two-year institution because its undergraduate instructional program is primarily associate degrees.

Federated States of Micronesia

Two-Year Institutions

College of Micronesia-FSM: Tuition and fee rates were included for the first time in AY 2024-25.

Guam

Two-Year Institution

Guam Community College (GCC): GCC did not change its tuition and fees for AY 2026-27.

Hawai'i

Two-Year Institutions

All Institutions: The amounts reported are based on 15 enrolled credits per semester (30 per year). The per-credit rates for AY 2025-26 are $131 (resident) and $345 (nonresident) for

all campuses and remain unchanged from the prior academic year.

University of Hawai'i (UH) Maui College: UH Maui College offers both associate and bachelor's degrees; however, it is included with the community colleges for reporting purposes.

Idaho

Two-Year Institutions

College of Eastern Idaho (CEI): Prior to AY 2018-19, CEI used a plateau tuition model where 12+ credits were the same cost. Starting AY 2018-19, CEI uses a per-credit tuition model with $129 per credit for resident undergraduate students.

Montana

Two-Year Institutions

All Institutions: Resident tuition levels represent amounts charged to residents of the local district/county supporting the institution.

Nevada

Two-Year Institutions

College of Southern Nevada, Great Basin College, and Western Nevada College: Reported tuition is for full-time lower-division enrollment only.

Great Basin College: While Great Basin College has a Carnegie Institutional Classification of Associate/Baccalaureate, it is reported here as a two-year institution because it primarily awards associate degrees and certificates.

Four-Year Institutions

Nevada State University: Resident and nonresident graduate tuition and fee rates were included for the first time in AY 2018-19.

New Mexico

Two-Year Institutions

New Mexico Junior College (NMJC): Beginning in 2021, NMJC began applying the 135-mile rule for West Texas residents. This allowed a West Texas resident within a 135-mile radius of NMJC to receive the out-of-district tuition rate instead of the out-of-state tuition rate.

Southeast New Mexico College (SENMC): Effective April 10, 2022, NMSU Carlsbad, a branch campus of New Mexico State University, changed operating status and became an independent college, recognized as Southeast New Mexico College.

Four-Year Institutions

Northern New Mexico College (NNMC): NNMC is a four-year institution that grants baccalaureate degrees, associate degrees, and certificates. When categorizing NNMC among other public institutions in New Mexico, NNMC is grouped as a Comprehensive University, along with Eastern New Mexico University, Western New Mexico University, and New Mexico Highlands University. It is categorized in this report as a four-year school.

University of New Mexico (UNM): UNM main campus undergraduate and graduate resident tuition rates increased by 3% for AY 2022-23. An additional adjustment to the 15-hour and above undergraduate resident flat rate was also made in a continued effort to eliminate the existing price discount for enrollment at 15 hours or more. The first adjustment to the price discount was implemented in AY 2020-21 with the final adjustment in AY 2022-23.

Western New Mexico University (WNMU): Two changes took place in the FY 2023 tuition and fee schedule for WNMU. The first was a change to the plateau from 15–18 credit hours to now be 18+ credit hours. The tuition rate for 15-18 credit hours was the hourly rate at 13.5 credit hours. Starting in Fall 2022, students will pay

the hourly rate per credit hour up to 18 credit hours with no additional charge above 18 credit hours. The other change is an additional book fee of $25 per credit hour that covers the cost of all required course materials.

North Dakota

Two-Year Institutions

Bismarck State College: Beginning Fall 2018, a new tuition model with differential program tuition rates eliminating all program fees and most course fees was introduced. This tuition model change includes a decrease in the nonresident tuition rate from a resident tuition rate factor of 2.67 to 1.5, with contiguous states charged residential rates, and established an international tuition rate using a resident tuition rate factor of 1.75.

Four-Year Institutions

Dickinson State University (DSU): The AY 2019-20 increase in tuition and fees is due to implementation of a new tuition model that eliminated most program and course fees, includes a 4% tuition increase and increased the tuition cap from 12 to 13 credits. In 2024-25, DSU changed its international rate factor to 1.28, except for contiguous Canadian Provinces which are at a 1.0 factor. DSU also changed all United States resident factors to 1.0 in AY 2024-25.

Mayville State University: Mayville State University tuition and fees increased 6% in AY 2019-20 due to the implementation of a new tuition model eliminating all program and course fees, a 4% tuition increase, and a change in its international rate factor from 2.67 to 1.75. In AY 2025-26 Mayville State University reduced its international rate factor from 1.75 to 1.25.

Minot State University: The AY 2019-20 increase includes a 4% tuition rate increase along with the implementation of a new tuition model that eliminated most program and course fees.

North Dakota State University (NDSU): Beginning in Fall 2018 NDSU changed to a new tuition model, eliminating all program fees and most course fees. The new tuition model also reduced the nonresident tuition rate from a resident tuition factor of 1.5 to 1.2 and reduced the international tuition rate from a resident tuition factor of 2.67 to 1.75.

University of North Dakota: In AY 2019-20, a new tuition model was implemented that eliminates most program and course fees and changed the international rate factor from 2.67 to 2.00.

Valley City State University: Fees include a $798 notebook computer fee through AY 2018-19 that was reduced to $700 for AY 2019-20. Valley City State University's nonresident rate decrease is due to its new tuition model for 2019-20 that decreases the nonresident factor from 2.67 to 1.75. The university in AY 2019-20 adjusted its international student factor from 2.67 to 1.75 as part of its new tuition model.

Oregon

Two-Year Institutions

Southwestern Oregon Community College: District policy allows a person to obtain residency in the district after residing in the district for 90 or more days.

Umpqua Community College: Starting in AY 2023-24, tuition rates were flattened so all resident, nonresident, and international students pay the same per-credit rate.

Four-Year Institutions

Eastern Oregon University (EOU): Nonresident students from Idaho and Washington pay resident tuition. All graduate programs at EOU are now off campus and do not charge fees.

Oregon Institute of Technology (OIT): The branch campus at Wilsonville assesses the same tuition but lower fees as OIT main.

Oregon State University (OSU): The branch campus in Bend assesses lower tuition for resident undergraduates and lower fees for all students.

Western Oregon University (WOU): WOU continues to offer to incoming resident undergraduate freshmen and transfer students a one-time choice between WOU's base tuition rate and WOU's fixed four-year tuition rate (called WOU Promise). Students electing the Promise rate option will not be subject to increases for a four-year period. Amounts reported represent the base tuition rate. Beginning in Summer 2021 all graduate students at WOU, including nonresidents, are charged in-state tuition.

Republic of the Marshall Islands

Two-Year Institutions

College of the Marshall Islands: Tuition and fee rates were included for the first time in AY 2024-25.

Republic of Palau

Two-Year Institutions

Palau Community College: Tuition and fee rates were included for the first time in AY 2022-23. Undergraduate tuition and fee rates in this report are calculated using 12 credit hours per semester, consistent with the institution's definition of full-time enrollment. This differs from the 15 credit hours specified in the reporting definitions; submissions from previous years have also used 12 credit hours/semester to ensure continuity and comparability.

South Dakota

Two-Year Institutions

Lake Area Technical College: Previous years' rates have been updated to reflect a consistent reporting structure based on 15 credit hours per semester.

Western Dakota Technical College: Additional required fees may be charged for facility, technology, and program costs.

Four-Year Institutions

All Institutions: Starting in FY 2017, the on-campus tuition rates at all institutions included the university support fee. All new nonresident undergraduates, including new transfer students, pay a rate of 150% of the undergraduate resident rate (except for Minnesota students, who pay the approved reciprocity rate).

South Dakota School of Mines & Technology, South Dakota State University, and the University of South Dakota: Differential state-support tuition rates apply at these research institutions.

Utah

Two-Year Institutions

Utah State University-Moab and Utah State University-Blanding: Tuition and fee rates were included for the first time in AY 2020-21.

All Institutions: In addition to the public two-year institutions included in Tables 7 and 8 of this report, the Utah System of Higher Education (USHE) includes eight technical colleges. Prior to AY 2023-24, tuition was based on a per-clock-hour rate. Starting in AY 2023-24 tuition was reported on an annual basis. Below are the AY 2026-27 tuition rates for the technical colleges:

- Bridgerland Technical College $2,850
- Davis Technical College $2,850
- Dixie Technical College $3,150
- Mountainland Technical College $3,750
- Ogden-Weber Technical College $3,000
- Southwest Technical College $2,850
- Tooele Technical College $2,550
- Uintah Basin Technical College $3,000

The unweighted average of the Utah two-year institutions is $4,510, and when including the technical colleges, the unweighted average tuition is $3,581.

Four-Year Institutions

All Institutions: USHE allows differential tuition rates for certain graduate programs. Graduate tuition and fees reported here are basic tuition and fee rates applicable to graduate programs within the USHE.

University of Utah: The University of Utah charges a slightly lower rate for lower-division courses; therefore, reported tuition rates for residents and nonresidents reflect lower-division courses only.

Weber State University: The graduate tuition and fee rates are based on the rates of its master's degrees in criminal justice, education, and social work.

Utah Tech University: Effective July 1, 2022, Dixie State University became Utah Tech University.

Washington

Two-Year Institutions

All Institutions: In the state of Washington, "tuition and fees" is a statutorily defined term consisting of an "operating fee" and a "building fee."

The nonresident tuition rates shown are the approved nonresident rate for each college. Individual colleges have authority to waive all or a part of the nonresident differential, and most of the colleges do exercise this waiver authority.

Four-Year Institutions

Central Washington University, Eastern Washington University, The Evergreen State College, University of Washington, and Western Washington University: Full-time undergraduate tuition is for 45 quarter credit hours.

Washington State University: Full-time undergraduate tuition is for 30 semester credit hours.

University of Washington and Washington State University: Tuition and fee rates for branch campuses began reporting in AY 2019-20.

University of Washington: Graduate rates reflect those for Graduate Tier I.

Wyoming

Two-Year Institutions

Northern Wyoming Community College District: The Gillette College campus is currently in the process of being independently accredited. The rates at Sheridan College and Gillette College campus are the same in AY 2026-27.

Western Wyoming College (WWC): Effective 2026, WWC raised its fees as part of a broader effort to address reductions in local revenue, particularly those associated with declining mineral revenues and residential property tax exemptions. Prior to increasing fees, the college also undertook significant cost-reduction efforts, including a reduction in force and organizational realignment last fall. Even with those reductions, the continued pressure on local revenue required looking at tuition and fees as part of the overall financial strategy. Effective July 1, 2026, Western Wyoming College changed its name from Western Wyoming Community College.

Four-Year Institutions

University of Wyoming: UW uses a block tuition model instead of a per-credit-hour model. Undergraduate students enrolled in 12 to 18 credit hours per semester and graduate students enrolled in 9 credit hours per semester will be charged the block rates. Some programs are excluded from the block tuition rates and will be charged per-credit based on their specific tuition differential rates.

Undergraduate fees include mandatory fees, advising fees, technology fees, and the average estimate for program fees. Program fees vary between $3 and $26 per credit hour. Graduate fees include mandatory fees and technology fees.

Appendix A

Undergraduate Full-Time Equivalent (FTE) Enrollment at Four-Year Institutions

Appendix D
Carnegie Classification of Institutions of Higher Education, 2025

The Carnegie Classification™ has been the leading framework for recognizing and describing institutional diversity in U.S. higher education for the past five decades. Starting in 1970, the Carnegie Commission on Higher Education developed a classification of colleges and universities to support its program of research and policy analysis. Derived from empirical data on colleges and universities, the Carnegie Classification was originally published in 1973, and subsequently updated in 1976, 1987, 1994, 2000, 2005, 2010, 2015, 2018, 2021, and 2025 to reflect changes among colleges and universities. This framework has been widely used in the study of higher education, both to represent and control for institutional differences, and to ensure adequate representation of sampled institutions, students, or faculty in the design of research studies. This report uses the 2025 update to the Carnegie Classification of Institutions of Higher Education.

The descriptions below detail the updated classifications, including the Institutional Classifications, Research Activity Designations, and the Student Access and Earnings Classifications. For more detailed information on classifications and methodology, refer to the Carnegie Classification of Institutions of Higher Education website available at carnegieclassifications.acenet.edu.

Institutional Classifications

The 2025 Carnegie Classifications offer three distinct classification methods to categorize institutions of higher education. The Institutional Classification fundamentally organizes institutions by the level of degrees they award: Doctorate, Master's, Baccalaureate, Associate/Baccalaureate, and Associate, with additional categorization by institution size and degree focus. Classification levels were determined using three-year averages of institutional data. The Institutional Classifications expands on and replaces the 2021 Basic Classifications.

Within these levels, institutions are further classified by Academic Program Mix, or the nature of the degrees they primarily award (Professions-Focused, Mixed, or Special Focus) and their enrollment size (Small, Medium, Large, or Large/Medium). Appendix E of this report details each public four-year institution by its Carnegie Institution Classification.

Undergraduate/Graduate-Doctorate

Institutions are classified as Doctorate institutions if they awarded at least 100 doctoral degrees in the last year, or if they awarded at least 20 doctoral degrees and at least 25% of their total degrees awarded are graduate degrees. Unlike previous years, Doctorate institutions are not delineated by research activity (e.g., R1, R2). Instead, research designations are now classified separately. Institution classifications include:

- Mixed Undergraduate/Graduate-Doctorate Large
- Mixed Undergraduate/Graduate-Doctorate Medium
- Mixed Undergraduate/Graduate-Doctorate Small
- Professions-focused Undergraduate/ Graduate-Doctorate Large
- Professions-focused Undergraduate/ Graduate-Doctorate Medium
- Professions-focused Undergraduate/ Graduate-Doctorate Small

Undergraduate/Graduate-Master's

Institutions are classified as Master's institutions if they award at least 200 master's and doctoral degrees, or if they award at least 50 master's degrees and at least 25% of their total awarded degrees are graduate degrees. With the new Research Activity Designations, it is possible for Master's institutions to have research designations. Institution classifications include:

- Mixed Undergraduate/Graduate-Master's Large/Medium
- Mixed Undergraduate/Graduate-Master's Small
- Professions-focused Undergraduate/Graduate-Master's Large/Medium
- Professions-focused Undergraduate/Graduate-Master's Small

Baccalaureate

Institutions are classified as Baccalaureate institutions if at least 50% of their degrees awarded are bachelor's degrees. Institution classifications include:

- Mixed Baccalaureate
- Professions-focused Baccalaureate Medium
- Professions-focused Baccalaureate Small

Associate/Baccalaureate

Institutions are classified as Associate/Baccalaureate if over 50% of their degrees are associate degrees, and up to half of their degrees are bachelor's degrees or higher. While some institutions in this tuition and fees report are classified as Associate/Baccalaureate institutions per the Carnegie Classification, WICHE sometimes reports these institutions as "Two-Year Institutions" if most degrees awarded are associate degrees, or if being reported as a two-year institution aligns with institutional preference. See State Notes for more information. Institution classifications include:

- Mixed Associate/Baccalaureate
- Professions-focused Associate/Baccalaureate

Associate

Institutions are classified as Associate institutions if at least 50% of their degrees awarded are associate degrees, and they do not meet the criteria for other classification. Institution classifications include:

- Mixed Associate Large
- Mixed Associate Medium
- Mixed Associate Small
- Professions-focused Associate Large/Medium
- Professions-focused Associate Small

Special Focus

Institutions are classified as Special Focus when, generally, the majority of degrees are awarded in a single academic area or field of study. Institution classifications include:

- Special Focus: Applied and Career Studies
- Special Focus: Arts and Sciences
- Special Focus: Arts, Music, and Design
- Special Focus: Business
- Special Focus: Graduate Studies
- Special Focus: Law
- Special Focus: Medical Schools and Centers
- Special Focus: Nursing
- Special Focus: Other Health Professions
- Special Focus: Technology, Engineering, and Sciences
- Special Focus: Theological Studies

Research Activity Designation

New for the 2025 Carnegie Classifications is research activity and spending in its own classification distinct from Institutional Classification. The Research Activity Designations use the level of research spending (using the Higher Education Research

Development Survey) along with the number of doctoral degrees awarded (using IPEDS data) to assign research levels. Institutions that do not meet these criteria are not classified on the Research Activity Designation list. For this year's report, WICHE reports on tuition and fees separately by Institutional Classification and Research Activity Designation (Tables 9 and 10). Appendix F of this report displays public four-year institutions by research designation.

Student Access and Earnings Classification

A new Carnegie Classification type in 2025 is the Student Access and Earnings Classification, which attempts to reflect access and social mobility by organizing institutions by the level of access an institution offers and the level of earnings its graduates go on to earn. WICHE is not incorporating the Student Access and Earnings Classification in this report.

For full descriptions and more detailed information on classification procedures, refer to the Carnegie Classification of Institutions of Higher Education website available at https://carnegieclassifications.acenet.edu/

Appendix G
Public Two-Year Institutions in the WICHE Region by State, 2026-27

	Number of Institutions
Alaska	--
American Samoa	1
Arizona	19
California	113
Colorado	14
Commonwealth of the Northern Mariana Islands	1
Federated States of Micronesia	1
Guam	1
Hawai'i	7
Idaho	3
Montana	9
Nevada	4
New Mexico	18
North Dakota	5
Oregon	17
Republic of the Marshall Islands	1
Republic of Palau	1
South Dakota	4
Utah	5
Washington	34
Wyoming	7
Total Number of Institutions	**265**

Notes: The University of Alaska system does not have any separately accredited two-year institutions, however, associate degree-seeking students can be found at all of the system's universities and community campuses.

APPENDIX H
Methodology

Since 1980, WICHE has collected tuition and fees data annually from public four- and two-year institutions in its member states and territories through a survey. The data are generally provided by staff at system offices or state higher education governing and coordinating board offices; a small number of individual institutions provide their data directly. Each year, respondents are asked to provide current published tuition and fees data for resident and nonresident undergraduate and graduate students in public four-year colleges and universities, and for resident and nonresident students in public two-year colleges (specific instructions are provided later in this appendix). Data reflect tuition and fees for full-time students attending for the full academic year, except special sessions and summer terms. Respondents are asked to indicate tuition and mandatory fees separately. In addition, they are asked to verify and, if necessary, correct previously reported data. They also provide additional interpretive information about specific circumstances for their states or institutions that is reflected in the State Notes.

The 2026-27 survey was emailed to state and institutional staff in June 2026. Surveys were returned by October 2026. The survey data were reviewed for possible errors, and questions were discussed with the staff in the appropriate office. WICHE used the 2025 Institutional Classifications of The Carnegie Classification of Institutions of Higher Education for breakdowns by institutional type in this edition of *Tuition and Fees in the West: 2026-27*. See Appendix D for more information.

Enrollment Weighting

This year's edition provides enrollment-weighted averages of tuition and fees in addition to the unweighted averages. When available, WICHE used the Fall Enrollment Survey from the National Center for Education Statistics' (NCES) Integrated Postsecondary Education Data System (IPEDS) to determine full-time equivalent (FTE) enrollment for each public two-year and four-year institution in the West. The weighted averages used FTE enrollment by institution as the weights, and FTE enrollment was calculated as equal to the full-time enrollment plus 1/3 of the part-time enrollment as reported in IPEDS for the applicable year. The AY 2026-27 and AY 2025-26 enrollment weights are set equal to the Fall 2024 FTE enrollment counts since the most recent years' enrollment data were not available before publication. Both resident and nonresident rates are weighted using the same FTE enrollment, as FTE enrollment does not distinguish between residency statuses.

Fees

WICHE calculated average mandatory fees for each institution, state, and the region. The one-, five-, and 10-year fee rates are displayed, as well as the percentage of total tuition and fees they represent. For this survey, fees are the required institutional fees that a majority of lower-division, full-time students are required to pay with tuition, excluding costs for books and supplies. This report does not include fees for graduate students due to wide variability in fees across graduate programs.

Inflation Adjustments

WICHE calculates constant dollar amounts using the Higher Education Cost Adjustment (HECA), calculated by SHEEO to adjust for the effects of inflation when observing long-term trends in tuition and fees. For this year's report, historical data was calculated to 2026 dollars for the WICHE regional averages in Tables 2a and 2b.

The 2026 HECA figure is preliminary at the time of publication. The procedure for converting current to constant dollars is included below.

$$TF_{Constant} = \frac{TF_{Current}}{(HECA_{Base} / HECA_{Current})}$$

For example, the procedure to convert average resident undergraduate tuition in 2021-22 shown in Table 1a, $9,270 to 2026 constant dollars is as follows:

$$TF_{Constant} = \frac{9{,}270}{(82.28/100)}$$

where the HECA value for 2026 is 100 and the HECA value for 2021 is 82.28.

Survey Instructions – Tuition and Required Fees in the West, 2026-27

Please complete and return this form by August 5, 2026, or as soon as tuition and fee data for 2026-27 are determined. For any questions or issues, please contact: Caitlyn Glaser at WICHE at cglaser@wiche.edu or 303-541-0272.

For each institution, input separately the 2026-27 tuition and required fees amount for full-time undergraduate students (and graduate students, as appropriate), for the full academic year (when applicable). See Definitions.

The last column shows the one-year percent change in total tuition and fees from 2025-26. Please review the total, tuition, and fees for 2016-17, 2021-22, 2025-26, and modify them as necessary. If modifying the total, please also modify the corresponding tuition and/or fee rates. We received these data in previous years, and they will be published this year alongside 2026-27 rates to show 1-, 5- and 10-year change.

Add any newly established public institutions or indicate name changes for existing institutions. Review and edit the explanatory notes shown to the right (as applicable) for individual or groups of institutions that will show in the State Notes section of the published report.

Section 1 – Contact Information for Person Completing the Form

Section 2 – Definitions

For the purposes of this survey, the following definitions apply:

- Tuition is the total dollar amount paid by a full-time student for a full academic year, usually two semesters, three quarters, or two trimesters.
- Required fees include the institutional fees that a majority of full-time students are required to pay in addition to tuition. Costs for books and supplies should not be included.
- If there are differences in tuition and fees for lower division and upper division students, please provide lower division tuition and fees.
- Full-time undergraduate tuition and fee rates should be based on 15 credit hours per semester or equivalent. (Please provide an endnote(s) if your calculation differs from how data have been submitted in previous years.)
- Full-time graduate tuition and fee rates should be based on 12 credit hours per semester or equivalent. (Please provide an endnote(s) if your calculation differs from how data have been submitted in previous years.)
